

Victoria's Performance Reporting for SSNPs Annual Report (Low SES and Literacy & Numeracy NP schools)

Victoria has agreed with DEEWR that it will provide a single Annual Report on its Smarter School National Partnerships. In line with that agreement and consistent with existing reporting arrangements against rewards targets under the SSNP Literacy and Numeracy NP for 2011 (Victoria has an integrated approach across SSNPs), NAPLAN performance information is provided on both Low SES and Literacy and Numeracy National Partnership Schools.

The NAPLAN performance information is provided for Years 3, 5, 7 and 9 on:

1. All students in all sectors:
 - (i). Students at or above minimum standard for Reading and Numeracy;
 - (ii). Students above minimum standard for Reading and Numeracy
 - (iii). Mean Scale Score for Reading and Numeracy
2. Indigenous students:
 - (i). Students at or above minimum standard Reading and Numeracy

NAPLAN Measures	Year Level and Domain	2009 NAPLAN Results for SSNP Schools						2010 NAPLAN Results for SSNP Schools						2011 NAPLAN Results for SSNP Schools

1. Assessed students include all students who attempt the test, including exempt students.
2. Students who qualify for exemption and do not submit a test attempted under test conditions are considered as assessed students.
3. Absent or Withdrawn students should not be counted as part of the cohort of assessed students.
4. These preliminary results were based upon a first cut of NAPLAN data - a final cut of NAPLAN data has been included in Column H.

Explanatory statement:

Students' scaled scores are used for the calculations of NAPLAN results.

In accordance with the NAPLAN reporting protocols, exempt students are counted as part of the cohort of assessed students.

Exempt students are deemed not to have met the national minimum standard. They are included in the denominator for the calculations of "percentage of students at or above the national minimum standard" and "percentage of students above the national minimum standard".

Exempt students are not included in the calculation of the mean score for the year level and domain.
