1. Introduction

1.1 What is in the publication

This publication contains a selected set of statistics compiled from the Higher Education Student Collection that was conducted in 2005 and 2006 by the Department of Education, Science and Training (DEST).

The data reported provides a summary of:

- numbers of students enrolled in units of study in higher education courses where the unit of study has a census date between 1 January 2005 and 31 December 2005;
 - actual student load for units of study reported with census dates from 1 January 2005 to 31 December 2005;
 - award course completions for students completing higher education courses in 2004;
 - enrolments and student load by reported Liability Status for the period 1 January 2005 to 31 December 2005; and
 - enrolments and load for units of study undertaken through Open Universities Australia during the period 1 January 2005 to 31 December 2005.
-

1.2 The Data Reported

1.2.1 How the data were collected

The data reported were compiled from the Higher Education Student Collection conducted by DEST. Specifications for the collections are provided in the relevant years' editions of the "Student Help File" available via <http://www.dest.gov.au/highered/hep/requirements/requirements.htm>

1.2.2 Higher education providers submitting data

The data for this publication were submitted by 74 higher education providers, an increase of 25 providers from 2004. However, a number of universities submitted data for specific courses only. For details on these universities see section 1.2.4 Special Cases.

The data for Open Learning were provided by Open Universities Australia (see section 1.2.4.2).

1.2.3 Data reported for higher education providers

1.2.3.1 Student numbers in 2005

Numbers of students reported for 2005 comprise unduplicated counts of students who met these criteria:

- during the period 1 January 2005 and 31 December 2005 the student had been admitted to one of the higher education providers listed in Appendix 5 (note that not all students enrolled in private higher education providers were reported to the Department) and was enrolled in a higher education award course, enabling course or non-award course; and

- the student was enrolled in a unit of study with a census date between 1 January 2005 and 31 December 2005; and
- at that time the student was entitled to be enrolled in the course and had not formally indicated that they had withdrawn from, deferred or discontinued the course.

In cases where a student was enrolled in more than one course, he or she has only been included once in the count of students. The type of enrolment and level of course reported for such students relates to the 'major' course being undertaken. Data relating to 'minor' courses undertaken are not included in tables reporting numbers of students. Major and minor courses are defined in Appendix 6.

Numbers of students reported for 2005 do not include students who were undertaking a 'cross-provider programme' at the provider for which data are reported. Such students would be included in the numbers reported by the provider where their substantive course was being undertaken. This procedure avoids double counting of numbers of such students.

1.2.3.2 Student load data for 2005

For 2005, student load data reflects actual load for units of study with census dates between 1 January 2005 and 31 December 2005. The data comprises student load for units of study in higher education award courses, enabling courses, non-award courses and 'cross-provider programmes', both for 'major' and 'minor' courses, undertaken in one of the higher education providers listed in Appendix 5.

1.2.3.3 Award Course Completions by field of education

Award Course Completions data for 1995 – 2000 have been mapped from field of study classification to field of education classification. See Appendix 8 for information on mapping. It should be noted that data reported for field of study in publications prior to 1997 were compiled in a different way. Data for 1997 to 2000 take into account the coding of combined courses to two fields of study and from 2001 to two fields of education. As a consequence, the total for some fields show larger increases between 1996 and subsequent years than would be the case if data for only one field were to be counted. Counting both fields for combined courses means that data in the totals may be less than the sum of all broad fields.

1.2.4 Special cases

1.2.4.1 Marcus Oldham College

Marcus Oldham College did not report 2004 student data and therefore no comparison has been made between 2004 and 2005 data for this provider. Data for Marcus Oldham College relates to undergraduate courses only.

1.2.4.2 Open Universities Australia

In 2005, Open Learning Australia became Open Universities Australia.

Limited data are reported for units of study undertaken through Open Universities Australia. These data are reported in Appendix 1 and depict unduplicated counts of students and student load for units of study undertaken in the March, June, September and December quarters of 2005.

1.2.4.3 Australian Maritime College

Data reported for the Australian Maritime College relate to all courses for which an operating grant is provided by the Commonwealth, including vocational education and training courses.

1.2.4.4 Melbourne College of Divinity

From 2005, Melbourne College of Divinity has provided data for both post-graduate and under-graduate courses. Prior to this, data was only provided for postgraduate courses.

1.2.4.5 Bond University

From 2004, Bond University has provided data for both post-graduate and under-graduate courses. Prior to this, data was only provided for postgraduate courses.

1.2.4.6 Christian Heritage College

Data for Christian Heritage College prior to 2005 relates to non-research postgraduate courses only. From 2005, data was provided for all Commonwealth-assisted students.

1.2.4.7 Tabor College – South Australia

Data for Tabor College – South Australia prior to 2005 relates to postgraduate courses only. From 2005, data was provided for all Commonwealth-assisted students.

1.2.4.8 Private providers

Private providers listed in Appendix 5 are only required to provide data relating to Commonwealth-assisted students.

1.2.4.9 The University of New South Wales and The University of Sydney

The Australian Graduate School of Management (AGSM) is a joint venture between the University of New South Wales and the University of Sydney. Data for the AGSM have been reported in the following way:

- in 1999, all student load relating to the AGSM have been reported by the University of New South Wales. It was not possible to redistribute the student load for these enrolments to the individual joint venture members. The University of New South Wales accounts for approximately a two-thirds share of the venture, with the University of Sydney accounting for the other one-third share.
- from 2001 onwards, all students continue to be reported in the University of New South Wales enrolment files, but the student load reported on the Student load and liability files is two thirds of the total on the AGSM data base. The students are also reported in the University of Sydney enrolment files but are treated as cross-institutional enrolments. The student load reported in the cross-institutional enrolments at Sydney is one third of the total load recorded on the AGSM data base. The treatment of the data in this way enables the analysis of student characteristics by provider. This treatment is consistent with the reporting of cross-institutional students at present, and the student load is correctly attributed to each provider.

1.3 Definitions

Definitions for terms used in this publication are provided at Appendix 6.

In interpreting the data in this publication, readers should note the collection specifications in the “Student Help File” available via <http://www.dest.gov.au/highered/hep/requirements/requirements.htm>

1.4 Reporting conventions for data

In tables reporting student load (EFTSL), totals do not always match precisely with the sum of values in the rows and columns. This is due to rounding.

1.5 Getting Access to More Data or Data in Electronic Form

The data in this publication are available in electronic form. All tables are available in the form of spreadsheets. This publication, together with other related publications, is available on the Internet from this site:

www.dest.gov.au/highered/statpubs.htm

Access to more detailed data from the Higher Education Student Collection may be possible through arrangement.

For information about the contents of this publication and access to more data please contact:

(a) The data takes into account the coding of Combined Courses to two fields of education. As a consequence, counting both fields of education for Combined Courses means that the totals may be less than the sum of all broad fields of education.

(b) Classification of Overseas Students is defined in the glossary section A6.29

3.7.2: All Overseas Students (b) by Level of Course, Broad Field of Education and Gender, Full Year 2005

Level of Course	Males										Females										TOTAL							
	Natural and Physical Sciences	Information Technology	Engineering and Related Technologies	Architecture and Building	Agriculture, Environmental and Related Studies	Health	Education and Commerce	Management and Commerce	Society and Culture	Creative Arts	Hospitality and Personal Services	Mixed Field Programmes	Non-award courses	TOTAL	Natural and Physical Sciences	Information Technology	Engineering and Related Technologies	Architecture and Building	Agriculture, Environmental and Related Studies	Health		Education and Commerce	Management and Commerce	Society and Culture	Creative Arts	Hospitality and Personal Services	Mixed Field Programmes	Non-award courses

(a) The data takes into account the coding of Combined Courses to two fields of education. As a consequence, counting both fields of education for Combined Courses means that the totals may be less than the sum of all broad fields of education.

(b) Classification of Overseas Students is defined in the glossary section A6.29.

3.8 Nursing Students

3.8.1: Commencing Students Enrolled in Courses for Initial Registration as Nurses by State, Higher Education Provider, Mode of Attendance, Type of Attendance and Gender, Full Year 2005

(a) Data for 1992 - 2000 have been mapped from field of study classification to field of education classification. See Appendix 8 for information on mapping.

(b) The data takes into account the coding of Combined Courses to two fields of education. As a consequence, counting both fields of education for combined Courses means that the totals may be less than the sum of all broad fields of education.

(b) Private provider.

(c) Before 2005 Open Universities Australia was known as Open Learning Australia.

Appendix 6 Definitions

A6.1 Academic Organisational Unit Group

An academic organisational unit group provides a means for standardising academic organisational units across providers. Academic organisational units are assigned to an academic organisational unit group on the basis of disciplines for which each academic organisational unit has a teaching and/or research responsibility.

A6.2 Census Date

From 2005, the date on which a student's enrolment in a Unit of Study is taken to be finalised. HECS-HELP and FEE-HELP debts are incurred and Student Learning Entitlement (SLE) is consumed on census dates. Students must make their up-front payments and submit their request/s for Commonwealth assistance by the census date. Prior to 2005, 'Census Date' referred to the census date for semesters.

A6.3 Citizenship

Citizenship categories reported in this publication are:

- Australian citizen (including Australian citizens with dual citizenship); or
- New Zealand citizen or diplomatic or consular representative of New Zealand, a member of the staff of such a representative or the spouse or dependent relative of such a representative, excluding those with Australian citizenship; or
- Students with a permanent humanitarian visa; or
- Students with a permanent visa other than a permanent humanitarian visa; or
- Student has a temporary entry permit or is a diplomat or a dependent of a diplomat (except New Zealand) and resides in Australia during a unit of study; or
- Student is residing outside Australia during the unit of study.

A6.4 Commencing Student

The full definition is provided in the "Student Help File" available via <http://www.dest.gov.au/highered/hep/requirements/requirements.htm>. In summary, for the purposes of the data presented in this publication, a commencing student for 2005 is a person who has enrolled for the first time in a particular higher education course at a particular higher education provider between 1 January and 31 December 2005.

A6.5 Course Completion

The successful completion of all the academic requirements of a course which includes any required attendance, assignments, examinations, assessments, dissertations, practical experience and work experience in industry. The conferring of the award for a course is not synonymous with and should not be substituted for 'course completion' as some students may have completed all the academic requirements of the course but not have received the award.

A course completion occurs in those cases where a student is conceded an award after ceasing studies which would have led to a single award for a combined course (eg. BA/LLb). In such cases the course completion is for the course for which the completed units of study are counted as meeting its requirements. However, if a student is granted an award after partial completion of a combined course which normally leads to a single award, and then resumes studies of the combined course in the next year, a course completion does not occur.

Where a combined course automatically leads to two separate awards, a course completion only occurs when the requirements of both awards have been satisfied. The completion, therefore, would be for the combined course only (and not two separate completions for two awards).

A6.6 Cross Provider Programme

A programme of study comprising a unit of study or set of units of study which meet all these criteria:

- it is being undertaken at one higher education provider (the 'host' higher education provider) as part of an award course or an enabling course for which the student is enrolled at another higher education provider (the 'home' higher education provider);
- there is an arrangement for recognition between the higher education providers;
- both higher education providers are listed in s4 of the *Higher Education Support Act 2003*;
- the cost of providing the programme of study is met by the host higher education provider; and
- funding for the load being reported for the unit of study has not been provided to the home higher education provider by the student, an employer, a Commonwealth or State department or agency, the Australian Research Council, or any other individual or body.

In this publication, student numbers are reported only for the 'home' provider however EFTSL is reported at the provider where it is undertaken.

A6.7 Discipline Group

A discipline group is a means of classifying units of study in terms of the subject matter being taught and/or researched in them. (See the "Student Help File" available via <http://www.dest.gov.au/highered/hep/requirements/requirements.htm>).

A6.8 Domestic Student

A student who is one of the following:

- Australian citizen (including Australian citizens with dual citizenship); or
- New Zealand citizen or a diplomatic or consular representative of New Zealand, a member of the staff of such a representative or the spouse or dependent relative of such a representative, excluding those with Australian citizenship. (Note: includes any such persons who have Permanent Resident status); or
- a permanent humanitarian visa holder
- a holder of a permanent visa other than a permanent humanitarian visa.

Note: In publications prior to 1996, New Zealand citizens were counted as being overseas students (*see Overseas Student*). In this publication, New Zealand citizens are counted as domestic students.

A6.9 EFTSL (Equivalent Full-time Student Load)

Terminology for student load changed between 2004 and 2005 from EFTSU (Equivalent Full Time Student Units) to EFTSL (Equivalent Full Time Student Load)

An EFTSL is a value representing the student load for part of a unit, unit or units of study, expressed as a proportion of the workload for a standard annual programme for a student undertaking a full year of study in a particular year of a particular course.

A6.10 Field of Education Classification (used after 2000)

A classification of courses, specialisations and units of study with the same or similar vocational emphasis or principal subject matter of the course, specialisation and unit of study. (See the “Student Help File” available via <http://www.dest.gov.au/highered/hep/requirements/requirements.htm>).

A6.11 Field of Study Classification (used prior to 2001)

A classification of courses based on similarity in terms of the vocational field of specialisation or the principal subject matter of the course. (See Appendix B of the document *Higher Education Student Collection Documentation - 2004*).

A6.12 Final Year of Secondary Education

The highest level of secondary education available in a State or Territory at the time the student undertook their most recent secondary education in that State or Territory.

Completion of the final year of secondary education occurs when a person has attended until the end of the academic year and attempted some part of the final secondary education formal examination or assessment. Completion is not contingent on success in such examinations or assessments.

A6.13 Higher Education Course

Higher education courses may be award courses, non-award courses, Bridging for Overseas Trained Professionals or enabling courses. Higher education courses do not include TAFE courses.

- Award course:
 - A programme of study formally approved/accredited by the higher education provider or any other relevant accreditation authority and which leads to an academic award granted by the higher education provider or which qualifies a student to enter a course at a level higher than a bachelor’s degree.
- Non-award course:
 - A programme of study which does not lead to an award and which comprises a unit or units of study which:
 - is a unit or units of study from an award course or courses at the higher education provider; and
 - is able to be counted as a credit towards some award course at the higher education provider by all students who complete the unit or units of study.
- Bridging course for Overseas Trained Professionals:
 - A course for overseas-trained professionals who are seeking to meet the formal requirements for entry into their profession in Australia.
- Enabling course:
 - A course of instruction that enables a person to undertake a course leading to a higher education award. Enabling courses do not include a course leading to a higher education award or any course that the Minister determines is not an enabling course under the Act HESA Schedule 1.

A6.14 Higher Education Provider

Universities and higher education providers listed in subdivision 16-B of the Higher Education Support Act (HESA) plus providers determined by the Minister under section 16-35 of HESA.

For the purpose of the data reported in this document, higher education providers are those listed in Appendix 5.

A6.15 Indigenous People

Persons who identify themselves as being of Australian Aboriginal or Torres Strait Islander descent.

A6.16 Isolated Student

Based on Postcode of home residence, the student comes from an area that has been determined an isolated location.

A6.17 Level of Course

A classification of courses to these levels:

- Higher Doctorate (Award-course completions tables only)
- Doctorate by Research
- Doctorate by Coursework
- Master's by Research
- Master's by Coursework
- Postgraduate Qualifying or Preliminary (for Master's, Ph.D. or Higher Doctorate)
- Graduate Diploma/Postgraduate Diploma – new area
- Graduate Diploma/Postgraduate Diploma – ext area
- Graduate Certificate
- Bachelor's Graduate Entry
- Bachelor's Honours
- Bachelor's Pass
- Associate Degree
- Advanced Diploma (AQF terminology)/Diploma (pre-AQF terminology)
- Diploma (AQF terminology)/Associate Diploma (pre-AQF terminology)
- Other undergraduate award course
- Enabling Course
- Non-award course
- Bridging for overseas trained professional course
- Undergraduate cross provider programme
- Postgraduate cross provider programme

A6.18 Low Socio-Economic Status Student

Based on Postcode of home residence, the student comes from an area that has been determined a low socio-economic location.

A6.19 Major Course

If a student is enrolled in more than one course at a higher education provider, the major course is the one which incurs the greatest student load in the submission.

A6.20 Minor Course

A course undertaken at a higher education provider by a student, other than the course which the higher education provider has identified as the major course.

A6.21 Mode of Attendance

A classification on the manner in which a student is undertaking a unit of study:

- Internal:
 - all units of study for which the student is enrolled are undertaken through attendance at the provider on a regular basis; or
 - where the student is undertaking a higher degree course of study for which regular attendance is not required, but attends the higher education provider on an agreed schedule for the purposes of supervision and/or instruction.
- External:
 - all units of study for which the student is enrolled involves special arrangement whereby lesson materials, assignments etc. are delivered to the student, and any associated attendance at the higher education provider is of an incidental, special or voluntary nature.
- Multi-Modal:
 - the units of study undertaken by a student are not exclusively internal or external.

A6.22 Non-English Speaking Background

A person who has a Non-English speaking background is one who meets all these criteria:

- they are a domestic student;
- they arrived in Australia less than 10 years prior to the Reference Year; and
- a language other than English is spoken at home.

A6.23 Numbers of Students

The number of students comprises unduplicated counts of students who were enrolled in a higher education award course and had consumed some load in at least one unit of study with a census date between 1 January and 31 December 2005.

A6.24 Nurse Education Courses

Award courses designed to provide an initial qualification in nursing which makes the student eligible for registration as a nurse. These are usually degree courses for those commencing since 1992 and diploma courses for those commencing before 1992. Excludes courses which are 'conversion courses' for registered nurses who possess an initial qualification in nursing, whether gained in a hospital-based course or from a higher education provider.

Excludes any courses for those who are already eligible for registration as a nurse.

A6.25 Offshore Campus

A campus of an Australian university, which is located outside Australia, through which a programme of study is being delivered.

A6.26 Offshore Student

A *student* who is residing overseas for the term/semester and is undertaking a programme of study conducted by an off-shore campus of an Australian university.

A6.27 Onshore Student

A *student* undertaking a programme of study conducted in Australia by an Australian university.

A6.28 Open Learning Studies

Open learning studies refers to a unit or units of study offered by Open Universities Australia (OUA) which are units of study from a higher education course and which can be counted as credit towards a higher education provider degree.

A6.29 Overseas Student

A student who is **not** included in the definition of Domestic Students (see above).

Overseas students include students who have a temporary entry permit or are a diplomat or a dependent of a diplomat (except New Zealand) and reside in Australia during the unit of study, and students who are not a domestic student and are residing outside Australia during the unit of study.

Note: In publications prior to 1996, New Zealand citizens were counted as being overseas students, except in those tables relating to HECS. In this publication New Zealand citizens are counted as domestic students (*see Domestic Student*).

A6.30 Reference Year

For the purposes of the data reported in this publication, the reference year is 2005.

A6.31 Residence

The place at which a student has been or is residing. Two categories of residence are to be distinguished:

- Term location - the residence in which a student lives during the term. This may or may not be the same as the student's permanent home residence.
- Permanent home residence – the place a student regards as being their permanent home residence. This may or may not be the same as the student's term residence.

A6.32 Rural Student

Based on Postcode of home residence, the student comes from an area that has been determined a rural location.

A6.33 Student

(see Number of Students)

A6.34 Student Load

(see *EFTSL*)

A6.35 Student with a Disability

Students who have indicated that they have a disability, impairment or long term medical condition which may affect their studies.

A6.36 Teacher Education

Award courses designed to provide qualifications in teaching which makes the student eligible to teach, that is, the student graduates with an initial qualification in teaching.

A6.37 Type of Attendance

Attendance is classified by the higher education provider as being full-time or part-time based on the student load for the student aggregated across all units of study (including work experience in industry units) for all courses being undertaken by the student in the submission period:

- Full-time: student load aggregated for all the courses being undertaken by the student in the collection year is 0.375 or more, and the student's load only occurs in 1 of the 2 half-year submissions within the collection year; or
- Student load aggregated for all the courses being undertaken by the student in the collection year is 0.750 or more, and the student's load occurs in both half year submissions within the collection year.
- Part-time: other than the above.

A6.38 Women in Non-traditional Areas

Female students undertaking courses which are coded to any of the following broad fields of study for the years 1993 to 2000: Agriculture, Animal Husbandry, Architecture, Building, Business, Administration, Economics, Engineering, Surveying or Science. Data from 2001 is based on any courses coded to any of the following broad fields of education: Natural and Physical Science, Information Technology, Engineering and Related Technologies, Architecture and Building, Agriculture, Environmental and Related Studies, Management and Commerce and the narrow field of education Economic and Econometrics.

Appendix 7 Field of Education classification – Post 2000 (a component of the Australian Standard Classification of Education – ASCED)

The Field of Education classification is the classification used to describe higher education courses, specialisations and units of study. The main purpose of the classification is to ensure courses, specialisations and units of study with the same or similar vocational emphasis are reliably classified to the same ‘field of education’. It is intended also to aid people who design data collections, respond to requests for data, and compile, verify and analyse data. As such, the classification may be viewed as a dictionary clarifying where particular courses, specialisations and units of study data should be categorised. It is important to note that this classification has been developed to be used nationally in all administrative and survey collections which incorporate data on education by field.

- Broad Field of Education: A two digit code representing a grouping of major fields of education.
- Narrow Field of Education: A four digit code (including the relevant broad field of education code) representing a group of minor fields of education.
- Detailed Field of Education: A six digit code (including the relevant broad and narrow field of education).

A broad field of education is a grouping of narrow fields of education; a narrow field of education is a grouping of detailed fields of education.

The classification uses the concept of vocational emphasis for coding courses and specialisations. Field of education groupings of courses and specialisations are on the basis of similarity of potential vocations rather than similarity of content.

Units of study are coded on the basis of a likeness in terms of their subject matter.

‘Other’ and ‘Not elsewhere classified’ categories are included within narrow and detailed fields to enable classification of courses, specialisations and units of study which cannot be allocated to a specific category.

01.00.00 NATURAL AND PHYSICAL SCIENCES

01.01.00 Mathematical Sciences

Appendix 8 Mapping of Fields of Study to Fields of Education

In 2001 a new Field of Education classification was introduced to replace the Field of Study classification for university courses. As there is no simple mapping between the two classifications, the introduction of the new classification has made it very difficult to examine the changing enrolment patterns between 1993 and 2001.

A matrix for mapping Broad Fields of Study to Broad Fields of Education has been developed, based on the classification of individual students who were enrolled in 2000 and were continuing students in the same course in 2001 (Appendix 10.1). Of the 695,484 students who were enrolled in 2000, 398,611 (57 per cent) continued studying the same course in 2001, resulting in a substantial sample of students from which a mapping could be developed.

Several different approaches for implementing these mappings were tried initially. These included developing different mappings for each provider, for each level of study and for overseas/domestic students. None of these mappings appeared to provide any advantage over a mapping based on all students. There was also some concern about the accuracy of the data at the finer level, largely due to changes in courses being offered by providers over the period 1992 to 2001.

As these mappings are based on the classification of individual students, they are not affected by any past errors in classifying courses. There is some concern that the mapping may not be accurate for courses which are normally completed in one academic year or less. However, if these courses include part-time students who take more than one year to complete the course then they would be included in the sample used for deriving this mapping.

Appendix 8.1 Matrix for Mapping Broad Field of Study to Broad Field of Education
