REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.5**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **2.9**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.3**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.7%	-1.0%	Yes
Population size above minimum threshold	6,800	3,000	Yes
Population size below maximum threshold	6,800	50,000	Yes
Year 10 completions above minimum threshold	83.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	39	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.7%
2 Proportion of population enrolled in VET (2021)		5%
3 Average growth in HE enrolments (2017-21)		0%
4 Average growth in VET enrolments (2017-21)	Access and participation	3%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	2%
6 Proportion of Indigenous population enrolled in VET (2021)		14%
7 Proportion of population with a tertiary qualification (2021)		22%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		4
9 Proportion of HE students that complete within 3 years (2018 cohort)		57%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	23%
11 Average VET completion rate (2017-19)	experience	66%
12 Average VET completion rate for Indigenous learners (2017-21)		67%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		76%
14 Proportion of HE graduates gaining employment (2018-21)		70%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	80%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	64%
17 Average growth in higher skilled labour demand (2015-22)		3%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	43
2 Total VET enrolments (Cert IV above and online) (2021)	demand	20
3 Population (aged 15-64) (2021)	Direct latent demand	3,801
4 Population growth (2017-2022)	demand	0.7%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	524
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	190
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	35,441
8 Broader SA3 population growth (2017-22)	demand	1.9%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.4**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **1.7**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.9**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 171 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.1%	-1.0%	Yes
Population size above minimum threshold	3,500	3,000	Yes
Population size below maximum threshold	3,500	50,000	Yes
Year 10 completions above minimum threshold	78.7%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	65	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

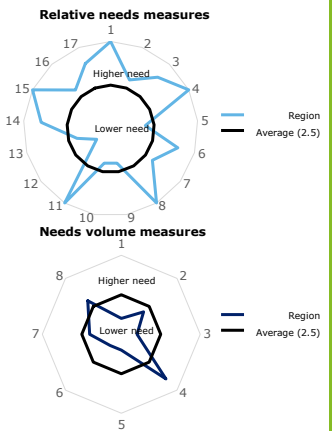

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.0%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		0%
4 Average growth in VET enrolments (2017-21)	Access and participation	7%
5 Proportion of Indigenous population enrolled in HE (2021)		2%
6 Proportion of Indigenous population enrolled in VET (2021)		13%
7 Proportion of population with a tertiary qualification (2021)		17%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		2
9 Proportion of HE students that complete within 3 years (2018 cohort)		0%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	0%
11 Average VET completion rate (2017-19)		66%
12 Average VET completion rate for Indigenous learners (2017-21)		33%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		100%
14 Proportion of HE graduates gaining employment (2018-21)		67%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	75%
16 Proportion of HE graduating into relevant employment (2018-2021)		70%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	18
2 Total VET enrolments (Cert IV above and online) (2021)		10
3 Population (aged 15-64) (2021)	Direct latent demand	1,940
4 Population growth (2017-2022)		1.1%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	191
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		54
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	15,169
8 Broader SA3 population growth (2017-22)		0.8%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **2.8**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **2.9**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.8**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 196 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.2**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 2 readiness issue/s identified. Total number of regions is 597.

Needs volume score **4.2**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.5**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

2 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.8%	-1.0%	Yes
Population size above minimum threshold	15,700	3,000	Yes
Population size below maximum threshold	15,700	50,000	Yes
Year 10 completions above minimum threshold	83.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	Yes	No	No
Nearest campus above minimum distance threshold (km) ⁵	0	40	No

REGIONAL NEEDS DASHBOARD

Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled "Scoping study to inform future locations for Regional University Centres" delivered to the Australian Government Department of Education, Skills and Employment on November 2021. Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 3.1

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score 3.0

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 3.0

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	2.9%	-1.0%	Yes
Population size above minimum threshold	7,800	3,000	Yes
Population size below maximum threshold	7,800	50,000	Yes
Year 10 completions above minimum threshold	87.6%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	15	40	No

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.6%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		-2%
4 Average growth in VET enrolments (2017-21)		-1%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	5%
6 Proportion of Indigenous population enrolled in VET (2021)		11%
7 Proportion of population with a tertiary qualification (2021)		21%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		6
9 Proportion of HE students that complete within 3 years (2018 cohort)		54%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	31%
11 Average VET completion rate (2017-19)		56%
12 Average VET completion rate for Indigenous learners (2017-21)		64%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		75%
14 Proportion of HE graduates gaining employment (2018-21)		65%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	74%
16 Proportion of HE graduating into relevant employment (2018-2021)		60%
17 Average growth in higher skilled labour demand (2015-22)		5%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current	75
2 Total VET enrolments (Cert IV above and online) (2021)	demand	23
3 Population (aged 15-64) (2021)	Direct latent	4,722
4 Population growth (2017-2022)	demand	2.9%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current	207
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	53
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent	14,030
8 Broader SA3 population growth (2017-22)	demand	2.7%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS
Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

READINESS THRESHOLD
These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	5.5%	-1.0%	Yes
Population size above minimum threshold	12,800	3,000	Yes
Population size below maximum threshold	12,800	50,000	Yes
Year 10 completions above minimum threshold	90.6%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	9	40	No

WEIGHTINGS
Weightings have been applied to the relative needs measures and overall needs scores.

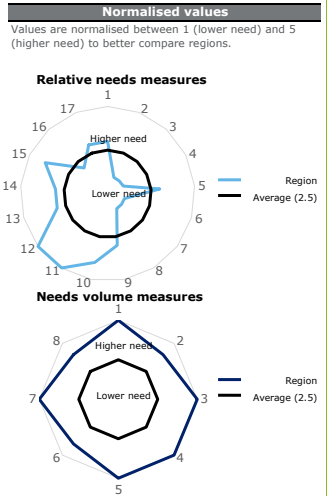

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.7**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **1.5**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.0**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.6%	-1.0%	Yes
Population size above minimum threshold	4,600	3,000	Yes
Population size below maximum threshold	4,600	50,000	Yes
Year 10 completions above minimum threshold	84.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	40	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

14 Proportion of HE graduates gaining employment (2018-21)		78%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	82%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	77%
17 Average growth in higher skilled labour demand (2015-22)		3%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	22
2 Total VET enrolments (Cert IV above and online) (2021)	demand	11
3 Population (aged 15-64) (2021)	Direct latent demand	2,244
4 Population growth (2017-2022)	demand	0.9%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	461
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	138
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	27,935
8 Broader SA3 population growth (2017-22)	demand	0.6%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Needs ranking
Regions that do not have any readiness issues identified are then ranked by the overall needs score.
Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.5%	-1.0%	Yes
Population size above minimum threshold	10,800	3,000	Yes
Population size below maximum threshold	10,800	50,000	Yes
Year 10 completions above minimum threshold	82.3%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	37	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.6%
2 Proportion of population enrolled in VET (2021)		8%
3 Average growth in HE enrolments (2017-21)		1%
4 Average growth in VET enrolments (2017-21)		6%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	2%
6 Proportion of Indigenous population enrolled in VET (2021)		17%
7 Proportion of population with a tertiary qualification (2021)		19%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		2
9 Proportion of HE students that complete within 3 years (2018 cohort)		46%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and participation	24%
11 Average VET completion rate (2017-19)	experience	69%
12 Average VET completion rate for Indigenous learners (2017-21)		86%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		76%
14 Proportion of HE graduates gaining employment (2018-21)		78%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	82%

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.1**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **2.0**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.8**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	2.1%	-1.0%	Yes
Population size above minimum threshold	4,900	3,000	Yes
Population size below maximum threshold	4,900	50,000	Yes
Year 10 completions above minimum threshold	83.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	23	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs measures

Needs volume measures

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

*Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled "Scoping study to inform future locations for Regional University Centres" delivered to the Australian Government Department of Education, Skills and Employment on November 2021. * Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.*

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 3.1

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 71 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score 4.0

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 3.4

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.1%	-1.0%	Yes
Population size above minimum threshold	8,900	3,000	Yes
Population size below maximum threshold	8,900	50,000	Yes
Year 10 completions above minimum threshold	90.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	78	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.0%
2 Proportion of population enrolled in VET (2021)		5%
3 Average growth in HE enrolments (2017-21)		-8%
4 Average growth in VET enrolments (2017-21)		-3%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	3%
6 Proportion of Indigenous population enrolled in VET (2021)		25%
7 Proportion of population with a tertiary qualification (2021)		29%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		6
9 Proportion of HE students that complete within 3 years (2018 cohort)		52%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	25%
11 Average VET completion rate (2017-19)		65%
12 Average VET completion rate for Indigenous learners (2017-21)		76%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		75%
14 Proportion of HE graduates gaining employment (2018-21)		73%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	80%
16 Proportion of HE graduating into relevant employment (2018-2021)		70%
17 Average growth in higher skilled labour demand (2015-22)		3%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	121
2 Total VET enrolments (Cert IV above and online) (2021)		19
3 Population (aged 15-64) (2021)	Direct latent demand	5,381
4 Population growth (2017-2022)		1.1%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	1823
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		221
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	46,422
8 Broader SA3 population growth (2017-22)		1.1%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **2.8**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 222 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score **1.8**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.5**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	-0.5%	-1.0%	Yes
Population size above minimum threshold	3,500	3,000	Yes
Population size below maximum threshold	3,500	50,000	Yes
Year 10 completions above minimum threshold	79.5%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	59	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

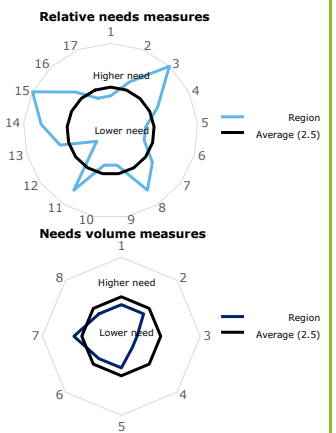

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		3.1%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		6%
4 Average growth in VET enrolments (2017-21)	Access and participation	2%
5 Proportion of Indigenous population enrolled in HE (2021)	participation	3%
6 Proportion of Indigenous population enrolled in VET (2021)		19%
7 Proportion of population with a tertiary qualification (2021)		17%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		3
9 Proportion of HE students that complete within 3 years (2018 cohort)		44%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	18%
11 Average VET completion rate (2017-19)	experience	64%
12 Average VET completion rate for Indigenous learners (2017-21)		40%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		81%
14 Proportion of HE graduates gaining employment (2018-21)		70%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	75%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	72%
17 Average growth in higher skilled labour demand (2015-22)		2%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current	38
2 Total VET enrolments (Cert IV above and online) (2021)	demand	10
3 Population (aged 15-64) (2021)	Direct latent demand	1,876
4 Population growth (2017-2022)	demand	-0.5%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current	324
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	96
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	22,749
8 Broader SA3 population growth (2017-22)	demand	0.2%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.3**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **3.5**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.3**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.6%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		-3%
4 Average growth in VET enrolments (2017-21)		7%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	2%
6 Proportion of Indigenous population enrolled in VET (2021)		16%
7 Proportion of population with a tertiary qualification (2021)		13%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		1
9 Proportion of HE students that complete within 3 years (2018 cohort)		49%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	28%
11 Average VET completion rate (2017-19)		68%
12 Average VET completion rate for Indigenous learners (2017-21)		77%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		77%
14 Proportion of HE graduates gaining employment (2018-21)		80%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	86%
16 Proportion of HE graduating into relevant employment (2018-2021)		76%
17 Average growth in higher skilled labour demand (2015-22)		2%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current	85
2 Total VET enrolments (Cert IV above and online) (2021)	demand	18
3 Population (aged 15-64) (2021)	Direct latent demand	3,511
4 Population growth (2017-2022)	demand	0.2%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current	289
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	88
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	17,107
8 Broader SA3 population growth (2017-22)	demand	0.7%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **2.8**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **2.5**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.7**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 208 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.7%	-1.0%	Yes
Population size above minimum threshold	5,700	3,000	Yes
Population size below maximum threshold	5,700	50,000	Yes
Year 10 completions above minimum threshold	86.4%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	58	40	Yes

10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	27%
11 Average VET completion rate (2017-19)		66%
12 Average VET completion rate for Indigenous learners (2017-21)		69%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		79%
14 Proportion of HE graduates gaining employment (2018-21)		68%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	78%
16 Proportion of HE graduating into relevant employment (2018-2021)		66%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	72
2 Total VET enrolments (Cert IV above and online) (2021)		20
3 Population (aged 15-64) (2021)	Direct latent demand	4,629
4 Population growth (2017-2022)		0.1%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	404
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		88
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	18,590
8 Broader SA3 population growth (2017-22)		1.2%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled 'Scoping study to inform future locations for Regional University Centres' delivered to the Australian Government Department of Education, Skills and Employment on November 2021. * Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.

Daylesford VIC

CONTEXTUAL INFORMATION

Demographic and other key contextual information related to the region, including the broader SA3 region.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 3.1

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 87 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score 3.6

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 3.3

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.6%	-1.0%	Yes
Population size above minimum threshold	10,000	3,000	Yes
Population size below maximum threshold	10,000	50,000	Yes
Year 10 completions above minimum threshold	89.6%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	42	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		3.1%
2 Proportion of population enrolled in VET (2021)		5%
3 Average growth in HE enrolments (2017-21)		-1%
4 Average growth in VET enrolments (2017-21)	Access and participation	-3%
5 Proportion of Indigenous population enrolled in HE (2021)		3%
6 Proportion of Indigenous population enrolled in VET (2021)		9%
7 Proportion of population with a tertiary qualification (2021)		35%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		6
9 Proportion of HE students that complete within 3 years (2018 cohort)		53%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	29%
11 Average VET completion rate (2017-19)		66%
12 Average VET completion rate for Indigenous learners (2017-21)		43%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		79%
14 Proportion of HE graduates gaining employment (2018-21)		65%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	78%
16 Proportion of HE graduating into relevant employment (2018-2021)		63%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	106
2 Total VET enrolments (Cert IV above and online) (2021)		35
3 Population (aged 15-64) (2021)	Direct latent demand	5,825
4 Population growth (2017-2022)		1.6%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	404

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.4**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **3.1**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.3**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	524
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		190
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	35,441
8 Broader SA3 population growth (2017-22)		1.9%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 2.7

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score 2.2

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 2.6

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.1%	-1.0%	Yes
Population size above minimum threshold	6,000	3,000	Yes
Population size below maximum threshold	6,000	50,000	Yes
Year 10 completions above minimum threshold	93.6%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	27	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.9%
2 Proportion of population enrolled in VET (2021)		3%
3 Average growth in HE enrolments (2017-21)		3%
4 Average growth in VET enrolments (2017-21)	Access and participation	0%
5 Proportion of Indigenous population enrolled in HE (2021)	participation	2%
6 Proportion of Indigenous population enrolled in VET (2021)		15%
7 Proportion of population with a tertiary qualification (2021)		41%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		9
9 Proportion of HE students that complete within 3 years (2018 cohort)		44%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	15%
11 Average VET completion rate (2017-19)	experience	44%
12 Average VET completion rate for Indigenous learners (2017-21)		80%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		79%
14 Proportion of HE graduates gaining employment (2018-21)	Transition and outcomes	100%
15 Proportion of HE graduates continuing further study (2018-21)	outcomes	100%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	100%
17 Average growth in higher skilled labour demand (2015-22)		3%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current	37

Southern Grampians	No

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.6**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **2.7**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.3**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 78 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.1%	-1.0%	Yes
Population size above minimum threshold	8,900	3,000	Yes
Population size below maximum threshold	8,900	50,000	Yes
Year 10 completions above minimum threshold	82.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	49	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.7%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		6%
4 Average growth in VET enrolments (2017-21)	Access and participation	5%
5 Proportion of Indigenous population enrolled in HE (2021)		2%
6 Proportion of Indigenous population enrolled in VET (2021)		18%
7 Proportion of population with a tertiary qualification (2021)		16%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		3
9 Proportion of HE students that complete within 3 years (2018 cohort)		55%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	26%
11 Average VET completion rate (2017-19)		63%
12 Average VET completion rate for Indigenous learners (2017-21)		83%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		79%
14 Proportion of HE graduates gaining employment (2018-21)	Transition and outcomes	76%
15 Proportion of HE graduates continuing further study (2018-21)		83%
16 Proportion of HE graduating into relevant employment (2018-2021)		75%
17 Average growth in higher skilled labour demand (2015-22)		2%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	61
2 Total VET enrolments (Cert IV above and online) (2021)		21
3 Population (aged 15-64) (2021)	Direct latent demand	5,177
4 Population growth (2017-2022)		0.1%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	356
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		84
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	21,394
8 Broader SA3 population growth (2017-22)		0.2%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.8**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 47 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score **2.7**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.5**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.2%	-1.0%	Yes
Population size above minimum threshold	10,300	3,000	Yes
Population size below maximum threshold	10,300	50,000	Yes
Year 10 completions above minimum threshold	82.5%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	69	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.0%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		3%
4 Average growth in VET enrolments (2017-21)		7%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	1%
6 Proportion of Indigenous population enrolled in VET (2021)		15%
7 Proportion of population with a tertiary qualification (2021)		19%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		3
9 Proportion of HE students that complete within 3 years (2018 cohort)		57%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	30%
11 Average VET completion rate (2017-19)		67%
12 Average VET completion rate for Indigenous learners (2017-21)		82%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		75%
14 Proportion of HE graduates gaining employment (2018-21)		73%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	85%
16 Proportion of HE graduating into relevant employment (2018-2021)		72%
17 Average growth in higher skilled labour demand (2015-22)		2%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current	109
2 Total VET enrolments (Cert IV above and online) (2021)	demand	18
3 Population (aged 15-64) (2021)	Direct latent	5,897
4 Population growth (2017-2022)	demand	0.2%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current	356
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	84
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent	21,394
8 Broader SA3 population growth (2017-22)	demand	0.2%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

*Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled "Scoping study to inform future locations for Regional University Centres" delivered to the Australian Government Department of Education, Skills and Employment on November 2021. * Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.*

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 3.3

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score 3.1

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 3.2

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	-0.2%	-1.0%	Yes
Population size above minimum threshold	14,100	3,000	Yes
Population size below maximum threshold	14,100	50,000	Yes
Year 10 completions above minimum threshold	87.4%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	14	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value

- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.2**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 56 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score **4.0**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.4**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.4%	-1.0%	Yes
Population size above minimum threshold	17,000	3,000	Yes
Population size below maximum threshold	17,000	50,000	Yes
Year 10 completions above minimum threshold	83.9%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	170	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

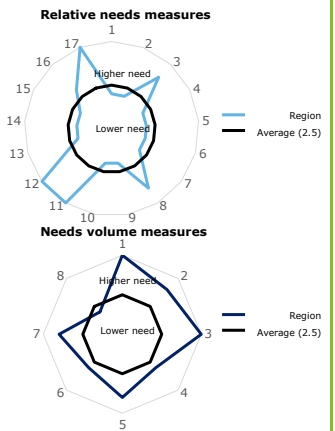

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.6%
2 Proportion of population enrolled in VET (2021)		8%
3 Average growth in HE enrolments (2017-21)		1%
4 Average growth in VET enrolments (2017-21)	Access and participation	-1%
5 Proportion of Indigenous population enrolled in HE (2021)		2%
6 Proportion of Indigenous population enrolled in VET (2021)		19%
7 Proportion of population with a tertiary qualification (2021)		20%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		3
9 Proportion of HE students that complete within 3 years (2018 cohort)		49%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	23%
11 Average VET completion rate (2017-19)		71%
12 Average VET completion rate for Indigenous learners (2017-21)		86%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		83%
14 Proportion of HE graduates gaining employment (2018-21)		82%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	86%
16 Proportion of HE graduating into relevant employment (2018-2021)		72%
17 Average growth in higher skilled labour demand (2015-22)		5%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	212
2 Total VET enrolments (Cert IV above and online) (2021)		55
3 Population (aged 15-64) (2021)	Direct latent demand	10,139
4 Population growth (2017-2022)		0.4%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	555
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		188
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	35,470
8 Broader SA3 population growth (2017-22)		0.0%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.7**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **1.7**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.1**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 128 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.0%	-1.0%	Yes
Population size above minimum threshold	4,000	3,000	Yes
Population size below maximum threshold	4,000	50,000	Yes
Year 10 completions above minimum threshold	77.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	56	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%

8 Broader SA3 population growth (2017-22)	demand	0.1%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled 'Scoping study to inform future locations for Regional University Centres' delivered to the Australian Government Department of Education, Skills and Employment on November 2021. Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.

Population size below maximum threshold	4,200	50,000	Yes
Year 10 completions above minimum threshold	88.5%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	25	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

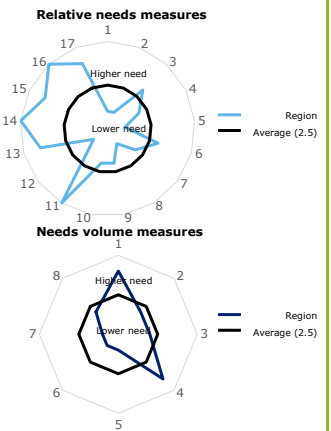

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		7.9%
2 Proportion of population enrolled in VET (2021)		8%
3 Average growth in HE enrolments (2017-21)		-1%
4 Average growth in VET enrolments (2017-21)		-1%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	7%
6 Proportion of Indigenous population enrolled in VET (2021)		15%
7 Proportion of population with a tertiary qualification (2021)		22%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		6
9 Proportion of HE students that complete within 3 years (2018 cohort)		46%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	23%
11 Average VET completion rate (2017-19)		67%
12 Average VET completion rate for Indigenous learners (2017-21)		60%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		77%
14 Proportion of HE graduates gaining employment (2018-21)		65%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	77%
16 Proportion of HE graduating into relevant employment (2018-2021)		58%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	100
2 Total VET enrolments (Cert IV above and online) (2021)		17
3 Population (aged 15-64) (2021)	Direct latent demand	2,850
4 Population growth (2017-2022)		1.2%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	186
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		33
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	6,113
8 Broader SA3 population growth (2017-22)		0.1%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.3**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **3.4**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.3**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	5.7%	-1.0%	Yes
Population size above minimum threshold	10,100	3,000	Yes
Population size below maximum threshold	10,100	50,000	Yes
Year 10 completions above minimum threshold	82.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	23	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

6 Proportion of Indigenous population enrolled in VET (2021)		29%
7 Proportion of population with a tertiary qualification (2021)		30%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		6
9 Proportion of HE students that complete within 3 years (2018 cohort)		47%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	31%
11 Average VET completion rate (2017-19)		65%
12 Average VET completion rate for Indigenous learners (2017-21)		89%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		80%
14 Proportion of HE graduates gaining employment (2018-21)		66%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	75%
16 Proportion of HE graduating into relevant employment (2018-2021)		56%
17 Average growth in higher skilled labour demand (2015-22)		6%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	110
2 Total VET enrolments (Cert IV above and online) (2021)		25
3 Population (aged 15-64) (2021)	Direct latent demand	6,254
4 Population growth (2017-2022)		1.2%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	541
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		120
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	30,925
8 Broader SA3 population growth (2017-22)		1.7%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.7**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **3.7**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.7**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.8%	-1.0%	Yes
Population size above minimum threshold	11,200	3,000	Yes
Population size below maximum threshold	11,200	50,000	Yes
Year 10 completions above minimum threshold	82.9%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	28	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.3%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		2%
4 Average growth in VET enrolments (2017-21)	Access and participation	-3%
5 Proportion of Indigenous population enrolled in HE (2021)	participation	1%
6 Proportion of Indigenous population enrolled in VET (2021)		19%
7 Proportion of population with a tertiary qualification (2021)		19%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		2
9 Proportion of HE students that complete within 3 years (2018 cohort)		38%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	22%
11 Average VET completion rate (2017-19)	experience	73%
12 Average VET completion rate for Indigenous learners (2017-21)		87%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		82%
14 Proportion of HE graduates gaining employment (2018-21)		75%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	80%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	77%

4 Population growth (2017-2022)		0.5%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	291
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		132
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	22,620
8 Broader SA3 population growth (2017-22)		0.3%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled 'Scoping study to inform future locations for Regional University Centres' delivered to the Australian Government Department of Education, Skills and Employment on November 2021. * Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.

Loddon VIC

CONTEXTUAL INFORMATION

Demographic and other key contextual information related to the region, including the broader SA3 region.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.3**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 164 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score **2.1**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.9**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.4%	-1.0%	Yes
Population size above minimum threshold	7,300	3,000	Yes
Population size below maximum threshold	7,300	50,000	Yes
Year 10 completions above minimum threshold	79.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	60	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.7%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		1%
4 Average growth in VET enrolments (2017-21)	Access and participation	-2%
5 Proportion of Indigenous population enrolled in HE (2021)	participation	3%
6 Proportion of Indigenous population enrolled in VET (2021)		9%
7 Proportion of population with a tertiary qualification (2021)		15%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		2
9 Proportion of HE students that complete within 3 years (2018 cohort)		48%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	20%
11 Average VET completion rate (2017-19)	experience	69%
12 Average VET completion rate for Indigenous learners (2017-21)		67%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		72%
14 Proportion of HE graduates gaining employment (2018-21)	Transition and outcomes	100%
15 Proportion of HE graduates continuing further study (2018-21)	outcomes	100%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	100%
17 Average growth in higher skilled labour demand (2015-22)		6%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	36
2 Total VET enrolments (Cert IV above and online) (2021)	demand	11
3 Population (aged 15-64) (2021)	Direct latent demand	4,066
4 Population growth (2017-2022)	demand	0.4%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	53
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	26
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	7,113
8 Broader SA3 population growth (2017-22)	demand	1.3%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.

3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 3.0 **Needs volume score 3.7** **Overall needs score 3.2**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 2 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

2 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	3.0%	-1.0%	Yes
Population size above minimum threshold	10,500	3,000	Yes
Population size below maximum threshold	10,500	50,000	Yes
Year 10 completions above minimum threshold	85.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	Yes	No	No
Nearest campus above minimum distance threshold (km) ⁵	0	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.7%
2 Proportion of population enrolled in VET (2021)		5%
3 Average growth in HE enrolments (2017-21)		0%
4 Average growth in VET enrolments (2017-21)	Access and participation	2%
5 Proportion of Indigenous population enrolled in HE (2021)		4%
6 Proportion of Indigenous population enrolled in VET (2021)		12%
7 Proportion of population with a tertiary qualification (2021)		24%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		5
9 Proportion of HE students that complete within 3 years (2018 cohort)		48%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	24%
11 Average VET completion rate (2017-19)		60%
12 Average VET completion rate for Indigenous learners (2017-21)		69%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		81%
14 Proportion of HE graduates gaining employment (2018-21)		60%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	73%
16 Proportion of HE graduating into relevant employment (2018-2021)		64%
17 Average growth in higher skilled labour demand (2015-22)		3%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	83
2 Total VET enrolments (Cert IV above and online) (2021)		33
3 Population (aged 15-64) (2021)	Direct latent demand	6,090
4 Population growth (2017-2022)		3.0%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	524
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		190
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	35,441
8 Broader SA3 population growth (2017-22)		1.9%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 4.3

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score 2.4

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 3.7

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 11 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.3%	-1.0%	Yes
Population size above minimum threshold	8,200	3,000	Yes

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.3**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 185 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score **1.8**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.8**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.0%	-1.0%	Yes
Population size above minimum threshold	3,700	3,000	Yes
Population size below maximum threshold	3,700	50,000	Yes
Year 10 completions above minimum threshold	80.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	85	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.4%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		0%
4 Average growth in VET enrolments (2017-21)	Access and participation	-4%
5 Proportion of Indigenous population enrolled in HE (2021)		0%
6 Proportion of Indigenous population enrolled in VET (2021)		26%
7 Proportion of population with a tertiary qualification (2021)		13%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		3
9 Proportion of HE students that complete within 3 years (2018 cohort)		0%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	0%
11 Average VET completion rate (2017-19)		63%
12 Average VET completion rate for Indigenous learners (2017-21)		83%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		100%
14 Proportion of HE graduates gaining employment (2018-21)		100%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	100%
16 Proportion of HE graduating into relevant employment (2018-2021)		100%
17 Average growth in higher skilled labour demand (2015-22)		5%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	21
2 Total VET enrolments (Cert IV above and online) (2021)		10
3 Population (aged 15-64) (2021)	Direct latent demand	2,214
4 Population growth (2017-2022)		0.0%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	209
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		277
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	39,143
8 Broader SA3 population growth (2017-22)		0.4%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **2.8**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **1.8**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.5**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.4%	-1.0%	Yes
Population size above minimum threshold	2,800	3,000	No
Population size below maximum threshold	2,800	50,000	Yes
Year 10 completions above minimum threshold	84.7%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	41	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **2.8**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **2.9**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.8**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 186 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	-0.2%	-1.0%	Yes
Population size above minimum threshold	4,700	3,000	Yes
Population size below maximum threshold	4,700	50,000	Yes
Year 10 completions above minimum threshold	83.7%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	48	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.6%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		-4%
4 Average growth in VET enrolments (2017-21)		1%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	2%
6 Proportion of Indigenous population enrolled in VET (2021)		15%
7 Proportion of population with a tertiary qualification (2021)		20%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		4
9 Proportion of HE students that complete within 3 years (2018 cohort)		40%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	25%
11 Average VET completion rate (2017-19)		65%
12 Average VET completion rate for Indigenous learners (2017-21)		55%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		78%
14 Proportion of HE graduates gaining employment (2018-21)		73%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	80%
16 Proportion of HE graduating into relevant employment (2018-2021)		70%
17 Average growth in higher skilled labour demand (2015-22)		3%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	58
2 Total VET enrolments (Cert IV above and online) (2021)		15
3 Population (aged 15-64) (2021)	Direct latent demand	2,740
4 Population growth (2017-2022)		-0.2%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	1823
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		221
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	46,422
8 Broader SA3 population growth (2017-22)		1.1%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.5**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **3.1**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.4**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.1%	-1.0%	Yes
Population size above minimum threshold	12,600	3,000	Yes
Population size below maximum threshold	12,600	50,000	Yes

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.5**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 2 readiness issue/s identified. Total number of regions is 597.

Needs volume score **3.1**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.4**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

2 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.6%	-1.0%	Yes
Population size above minimum threshold	6,700	3,000	Yes
Population size below maximum threshold	6,700	50,000	Yes
Year 10 completions above minimum threshold	81.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	Yes	No	No
Nearest campus above minimum distance threshold (km) ⁵	0	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.0%
2 Proportion of population enrolled in VET (2021)		5%
3 Average growth in HE enrolments (2017-21)		1%
4 Average growth in VET enrolments (2017-21)		-11%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	1%
6 Proportion of Indigenous population enrolled in VET (2021)		14%
7 Proportion of population with a tertiary qualification (2021)		19%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		2
9 Proportion of HE students that complete within 3 years (2018 cohort)		34%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	17%
11 Average VET completion rate (2017-19)		63%
12 Average VET completion rate for Indigenous learners (2017-21)		86%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		81%
14 Proportion of HE graduates gaining employment (2018-21)		75%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	80%
16 Proportion of HE graduating into relevant employment (2018-2021)		77%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	75
2 Total VET enrolments (Cert IV above and online) (2021)		29
3 Population (aged 15-64) (2021)	Direct latent demand	3,691
4 Population growth (2017-2022)		0.6%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	446
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		221
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	26,421
8 Broader SA3 population growth (2017-22)		1.2%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Relative needs measures

Needs volume measures

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 2.7

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score 2.5

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 2.6

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 217 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.8%	-1.0%	Yes
Population size above minimum threshold	4,000	3,000	Yes
Population size below maximum threshold	4,000	50,000	Yes
Year 10 completions above minimum threshold	88.7%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	80	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.5**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **4.4**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.8**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.0%
2 Proportion of population enrolled in VET (2021)		5%
3 Average growth in HE enrolments (2017-21)		-9%
4 Average growth in VET enrolments (2017-21)	Access and participation	-2%
5 Proportion of Indigenous population enrolled in HE (2021)		3%
6 Proportion of Indigenous population enrolled in VET (2021)		14%
7 Proportion of population with a tertiary qualification (2021)		26%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		4
9 Proportion of HE students that complete within 3 years (2018 cohort)		59%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	31%
11 Average VET completion rate (2017-19)		67%
12 Average VET completion rate for Indigenous learners (2017-21)		79%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		82%
14 Proportion of HE graduates gaining employment (2018-21)		56%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	65%
16 Proportion of HE graduating into relevant employment (2018-2021)		67%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	141
2 Total VET enrolments (Cert IV above and online) (2021)		56
3 Population (aged 15-64) (2021)	Direct latent demand	7,666
4 Population growth (2017-2022)		4.3%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	670
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		244
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	39,982
8 Broader SA3 population growth (2017-22)		2.4%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

Portland VIC

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 3.4

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score 3.1

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 3.3

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking
Regions that do not have any readiness issues identified are then ranked by the overall needs score.
Ranked 76 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.3%	-1.0%	Yes
Population size above minimum threshold	11,200	3,000	Yes
Population size below maximum threshold	11,200	50,000	Yes
Year 10 completions above minimum threshold	81.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	79	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.3%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		2%
4 Average growth in VET enrolments (2017-21)		4%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	2%
6 Proportion of Indigenous population enrolled in VET (2021)		21%
7 Proportion of population with a tertiary qualification (2021)		16%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		2
9 Proportion of HE students that complete within 3 years (2018 cohort)		62%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	29%

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.5**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **1.9**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.0**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³

7 Proportion of population with a tertiary qualification (2021)		13%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		4
9 Proportion of HE students that complete within 3 years (2018 cohort)		54%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	23%
11 Average VET completion rate (2017-19)		70%
12 Average VET completion rate for Indigenous learners (2017-21)		67%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		83%
14 Proportion of HE graduates gaining employment (2018-21)		76%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	80%
16 Proportion of HE graduating into relevant employment (2018-2021)		66%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	24
2 Total VET enrolments (Cert IV above and online) (2021)		15
3 Population (aged 15-64) (2021)	Direct latent demand	3,335
4 Population growth (2017-2022)		0.0%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	451
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		194
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	27,252
8 Broader SA3 population growth (2017-22)		0.6%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.3**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **1.7**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.8**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 189 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.4%	-1.0%	Yes
Population size above minimum threshold	4,200	3,000	Yes
Population size below maximum threshold	4,200	50,000	Yes
Year 10 completions above minimum threshold	78.0%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	54	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.1%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		0%
4 Average growth in VET enrolments (2017-21)	Access and participation	5%
5 Proportion of Indigenous population enrolled in HE (2021)		0%
6 Proportion of Indigenous population enrolled in VET (2021)		12%
7 Proportion of population with a tertiary qualification (2021)		14%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		2
9 Proportion of HE students that complete within 3 years (2018 cohort)		0%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	0%
11 Average VET completion rate (2017-19)		69%
12 Average VET completion rate for Indigenous learners (2017-21)		64%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		100%
14 Proportion of HE graduates gaining employment (2018-21)		77%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	82%
16 Proportion of HE graduating into relevant employment (2018-2021)		75%

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 2.5

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score 2.7

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 2.5

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.6%	-1.0%	Yes
Population size above minimum threshold	4,000	3,000	Yes
Population size below maximum threshold	4,000	50,000	Yes
Year 10 completions above minimum threshold	84.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	33	40	No

WEIGHTINGS

5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	524
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	190
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	35,441
8 Broader SA3 population growth (2017-22)	demand	1.9%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.6**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **3.1**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.5**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 49 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.4%	-1.0%	Yes
Population size above minimum threshold	6,600	3,000	Yes
Population size below maximum threshold	6,600	50,000	Yes
Year 10 completions above minimum threshold	79.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	70	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.5%
2 Proportion of population enrolled in VET (2021)		8%
3 Average growth in HE enrolments (2017-21)		0%
4 Average growth in VET enrolments (2017-21)	Access and participation	9%
5 Proportion of Indigenous population enrolled in HE (2021)		2%
6 Proportion of Indigenous population enrolled in VET (2021)		16%
7 Proportion of population with a tertiary qualification (2021)		16%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		1
9 Proportion of HE students that complete within 3 years (2018 cohort)		52%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	32%
11 Average VET completion rate (2017-19)		61%
12 Average VET completion rate for Indigenous learners (2017-21)		82%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		75%
14 Proportion of HE graduates gaining employment (2018-21)		70%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	79%
16 Proportion of HE graduating into relevant employment (2018-2021)		64%
17 Average growth in higher skilled labour demand (2015-22)		3%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	71

5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled "Scoping study to inform future locations for Regional University Centres" delivered to the Australian Government Department of Education, Skills and Employment on November 2021." Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.

Shepparton Surrounds - West VIC

CONTEXTUAL INFORMATION

Demographic and other key contextual information related to the region, including the broader SA3 region.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.6**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **3.3**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.5**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.1%	-1.0%	Yes
Population size above minimum threshold	10,300	3,000	Yes
Population size below maximum threshold	10,300	50,000	Yes
Year 10 completions above minimum threshold	82.2%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	19	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

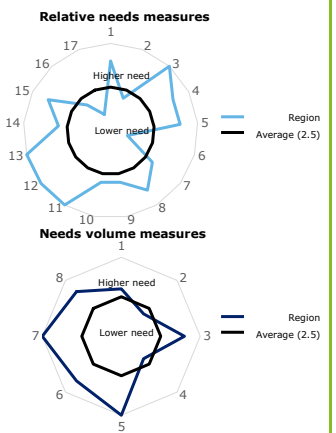

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		1.8%
2 Proportion of population enrolled in VET (2021)		8%
3 Average growth in HE enrolments (2017-21)		3%
4 Average growth in VET enrolments (2017-21)	Access and participation	3%
5 Proportion of Indigenous population enrolled in HE (2021)		1%
6 Proportion of Indigenous population enrolled in VET (2021)		52%
7 Proportion of population with a tertiary qualification (2021)		18%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		3
9 Proportion of HE students that complete within 3 years (2018 cohort)		54%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	24%
11 Average VET completion rate (2017-19)		67%
12 Average VET completion rate for Indigenous learners (2017-21)		94%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		71%
14 Proportion of HE graduates gaining employment (2018-21)		76%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	78%
16 Proportion of HE graduating into relevant employment (2018-2021)		77%
17 Average growth in higher skilled labour demand (2015-22)		2%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	71
2 Total VET enrolments (Cert IV above and online) (2021)		15
3 Population (aged 15-64) (2021)	Direct latent demand	6,408
4 Population growth (2017-2022)		0.1%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	879
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		197
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	41,969
8 Broader SA3 population growth (2017-22)		1.0%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.0**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **2.2**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.7**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 204 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.3%	-1.0%	Yes
Population size above minimum threshold	6,300	3,000	Yes
Population size below maximum threshold	6,300	50,000	Yes
Year 10 completions above minimum threshold	85.4%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	89	40	Yes

WEIGHTINGS

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score 2.9

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score 4.9

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score 3.5

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking
Regions that do not have any readiness issues identified are then ranked by the overall needs score.
Has no ranking with 2 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD
These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

2 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	4.0%	-1.0%	Yes
Population size above minimum threshold	82,100	3,000	Yes
Population size below maximum threshold	82,100	50,000	No
Year 10 completions above minimum threshold	90.8%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	12	40	No

WEIGHTINGS
Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

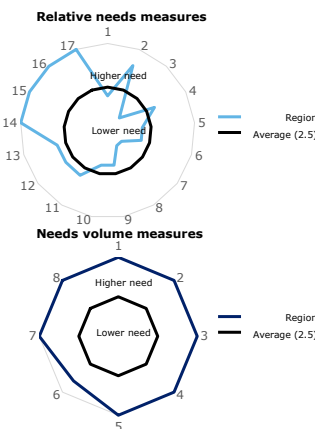

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		3.2%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		-5%
4 Average growth in VET enrolments (2017-21)		2%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	3%
6 Proportion of Indigenous population enrolled in VET (2021)		19%
7 Proportion of population with a tertiary qualification (2021)		33%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		7
9 Proportion of HE students that complete within 3 years (2018 cohort)		48%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	24%
11 Average VET completion rate (2017-19)		57%
12 Average VET completion rate for Indigenous learners (2017-21)		76%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		81%
14 Proportion of HE graduates gaining employment (2018-21)		64%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	76%
16 Proportion of HE graduating into relevant employment (2018-2021)		63%
17 Average growth in higher skilled labour demand (2015-22)		5%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	1048
2 Total VET enrolments (Cert IV above and online) (2021)		261
3 Population (aged 15-64) (2021)	Direct latent demand	46,629
4 Population growth (2017-2022)		4.0%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	1048
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		261
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	46,629
8 Broader SA3 population growth (2017-22)		4.0%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

*Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled "Scoping study to inform future locations for Regional University Centres" delivered to the Australian Government Department of Education, Skills and Employment on November 2021. * Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.*

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.8**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 79 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score **2.1**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.3**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.2%	-1.0%	Yes
Population size above minimum threshold	6,500	3,000	Yes
Population size below maximum threshold	6,500	50,000	Yes
Year 10 completions above minimum threshold	81.3%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	44	40	Yes

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.0**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **3.7**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.2**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.1%	-1.0%	Yes
Population size above minimum threshold	8,400	3,000	Yes
Population size below maximum threshold	8,400	50,000	Yes
Year 10 completions above minimum threshold	86.0%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	29	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.7%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		-1%
4 Average growth in VET enrolments (2017-21)	Access and participation	0%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	2%
6 Proportion of Indigenous population enrolled in VET (2021)		11%
7 Proportion of population with a tertiary qualification (2021)		20%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		4
9 Proportion of HE students that complete within 3 years (2018 cohort)		52%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	23%
11 Average VET completion rate (2017-19)	experience	65%
12 Average VET completion rate for Indigenous learners (2017-21)		44%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		81%
14 Proportion of HE graduates gaining employment (2018-21)		79%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	85%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	67%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	73
2 Total VET enrolments (Cert IV above and online) (2021)	demand	34
3 Population (aged 15-64) (2021)	Direct latent demand	4,884
4 Population growth (2017-2022)	demand	1.1%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	543
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	251
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	34,405
8 Broader SA3 population growth (2017-22)	demand	2.4%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **2.8**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **2.3**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.6**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	4.5%	-1.0%	Yes
Population size above minimum threshold	200	3,000	No
Population size below maximum threshold	200	50,000	Yes
Year 10 completions above minimum threshold	86.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	52	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.2**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **4.6**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.6**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 15 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	3.6%	-1.0%	Yes
Population size above minimum threshold	23,100	3,000	Yes
Population size below maximum threshold	23,100	50,000	Yes
Year 10 completions above minimum threshold	86.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	45	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		3.4%
2 Proportion of population enrolled in VET (2021)		6%
3 Average growth in HE enrolments (2017-21)		-1%
4 Average growth in VET enrolments (2017-21)		-3%
5 Proportion of Indigenous population enrolled in HE (2021)	Access and participation	3%
6 Proportion of Indigenous population enrolled in VET (2021)		16%
7 Proportion of population with a tertiary qualification (2021)		25%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		5
9 Proportion of HE students that complete within 3 years (2018 cohort)		52%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	25%
11 Average VET completion rate (2017-19)		64%
12 Average VET completion rate for Indigenous learners (2017-21)		87%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		80%
14 Proportion of HE graduates gaining employment (2018-21)		71%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	80%
16 Proportion of HE graduating into relevant employment (2018-2021)		75%
17 Average growth in higher skilled labour demand (2015-22)		4%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	251
2 Total VET enrolments (Cert IV above and online) (2021)		107
3 Population (aged 15-64) (2021)	Direct latent demand	13,888
4 Population growth (2017-2022)		3.6%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	543
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		251
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	34,405
8 Broader SA3 population growth (2017-22)		2.4%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.1**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 3 readiness issue/s identified. Total number of regions is 597.

Needs volume score **4.2**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.4**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

3 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.7%	-1.0%	Yes
Population size above minimum threshold	52,800	3,000	Yes
Population size below maximum threshold	52,800	50,000	No
Year 10 completions above minimum threshold	85.3%	75.0%	Yes
Existing RUC or university campus in region ⁴	Yes	No	No
Nearest campus above minimum distance threshold (km) ⁵	0	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%

11 Average VET completion rate (2017-19)		0%
12 Average VET completion rate for Indigenous learners (2017-21)		0%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		100%
14 Proportion of HE graduates gaining employment (2018-21)		100%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	100%
16 Proportion of HE graduating into relevant employment (2018-2021)		100%
17 Average growth in higher skilled labour demand (2015-22)		0%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	0
2 Total VET enrolments (Cert IV above and online) (2021)		0
3 Population (aged 15-64) (2021)	Direct latent demand	0
4 Population growth (2017-2022)		0.0%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	0
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)		0
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	0
8 Broader SA3 population growth (2017-22)		0.0%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **2.9**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **2.7**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.8**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	2.4%	-1.0%	Yes
Population size above minimum threshold	6,600	3,000	Yes
Population size below maximum threshold	6,600	50,000	Yes
Year 10 completions above minimum threshold	89.4%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	23	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		3.4%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		0%
4 Average growth in VET enrolments (2017-21)	Access and participation	3%
5 Proportion of Indigenous population enrolled in HE (2021)	participation	2%
6 Proportion of Indigenous population enrolled in VET (2021)		23%
7 Proportion of population with a tertiary qualification (2021)		27%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		7
9 Proportion of HE students that complete within 3 years (2018 cohort)		45%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	23%
11 Average VET completion rate (2017-19)	experience	59%
12 Average VET completion rate for Indigenous learners (2017-21)		69%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		78%
14 Proportion of HE graduates gaining employment (2018-21)	Transition and outcomes	61%
15 Proportion of HE graduates continuing further study (2018-21)	outcomes	72%
16 Proportion of HE graduating into relevant employment (2018-2021)		54%
17 Average growth in higher skilled labour demand (2015-22)		5%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	80
2 Total VET enrolments (Cert IV above and online) (2021)	demand	13
3 Population (aged 15-64) (2021)	Direct latent demand	4,136
4 Population growth (2017-2022)	demand	2.4%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	207
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	53
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	14,030
8 Broader SA3 population growth (2017-22)	demand	2.7%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.1**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 2 readiness issue/s identified. Total number of regions is 597.

Needs volume score **4.3**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.5**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

2 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	-0.9%	-1.0%	Yes
Population size above minimum threshold	15,100	3,000	Yes
Population size below maximum threshold	15,100	50,000	Yes

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **2.4**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **3.9**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **2.9**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	2.6%	-1.0%	Yes
Population size above minimum threshold	5,200	3,000	Yes
Population size below maximum threshold	5,200	50,000	Yes
Year 10 completions above minimum threshold	90.3%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	27	40	No

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		7.9%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		-2%
4 Average growth in VET enrolments (2017-21)	Access and participation	3%
5 Proportion of Indigenous population enrolled in HE (2021)	participation	8%
6 Proportion of Indigenous population enrolled in VET (2021)		18%
7 Proportion of population with a tertiary qualification (2021)		27%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		7
9 Proportion of HE students that complete within 3 years (2018 cohort)		51%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	26%
11 Average VET completion rate (2017-19)	experience	62%
12 Average VET completion rate for Indigenous learners (2017-21)		69%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		80%
14 Proportion of HE graduates gaining employment (2018-21)		77%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	81%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	76%
17 Average growth in higher skilled labour demand (2015-22)		3%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	225
2 Total VET enrolments (Cert IV above and online) (2021)	demand	11
3 Population (aged 15-64) (2021)	Direct latent demand	3,112
4 Population growth (2017-2022)	demand	2.6%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	1823
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	221
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	46,422
8 Broader SA3 population growth (2017-22)	demand	1.1%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

- Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
- Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
- Met? - Whether or not a region meets a readiness threshold.
- Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
- Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
- Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
- Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
- SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
- This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled 'Scoping study to inform future locations for Regional University Centres' delivered to the Australian Government Department of Education, Skills and Employment on November 2021. Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.2**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Has no ranking with 1 readiness issue/s identified. Total number of regions is 597.

Needs volume score **3.5**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.3**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

1 initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	0.3%	-1.0%	Yes
Population size above minimum threshold	16,800	3,000	Yes
Population size below maximum threshold	16,800	50,000	Yes
Year 10 completions above minimum threshold	85.1%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	26	40	No

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.0**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **3.1**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.0**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 143 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	1.3%	-1.0%	Yes
Population size above minimum threshold	8,700	3,000	Yes
Population size below maximum threshold	8,700	50,000	Yes
Year 10 completions above minimum threshold	81.4%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	45	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score **3.4**

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs volume score **2.6**

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score **3.2**

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 107 of 235 regions with no readiness issues identified. Total number of regions is 597.

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	-0.8%	-1.0%	Yes
Population size above minimum threshold	6,500	3,000	Yes
Population size below maximum threshold	6,500	50,000	Yes
Year 10 completions above minimum threshold	79.9%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	121	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%

NEEDS MEASURES

The specific measures used to determine the overall needs score and ranking. Values for each measure are normalised between 1 (lower need) to 5 (higher need) to support comparisons between regions and aggregating multiple measures. The radar charts (right) present the normalised values for each measure; scores below average (inside the black circle) represent lower levels of needs, whereas scores above average (outside the black circle) represent higher levels of need.

Relative needs measure	Theme	Value
1 Proportion of population enrolled in HE (2021)		2.0%
2 Proportion of population enrolled in VET (2021)		7%
3 Average growth in HE enrolments (2017-21)		-1%
4 Average growth in VET enrolments (2017-21)	Access and participation	0%
5 Proportion of Indigenous population enrolled in HE (2021)	participation	0%
6 Proportion of Indigenous population enrolled in VET (2021)		22%
7 Proportion of population with a tertiary qualification (2021)		15%
8 Level of disadvantage (SEIFA deciles, where 1 = most disadvantaged) (2021)		2
9 Proportion of HE students that complete within 3 years (2018 cohort)		45%
10 Proportion of HE students that unenrol within 4 years (2018 cohort)	Retention and experience	22%
11 Average VET completion rate (2017-19)	experience	71%
12 Average VET completion rate for Indigenous learners (2017-21)		84%
13 Proportion of HE graduates satisfied with overall experience (2017-21)		79%
14 Proportion of HE graduates gaining employment (2018-21)		81%
15 Proportion of HE graduates continuing further study (2018-21)	Transition and outcomes	85%
16 Proportion of HE graduating into relevant employment (2018-2021)	outcomes	74%
17 Average growth in higher skilled labour demand (2015-22)		5%

Needs volume measures	Theme	Value
1 Total HE enrolments (online) (2021)	Direct current demand	47
2 Total VET enrolments (Cert IV above and online) (2021)	demand	24
3 Population (aged 15-64) (2021)	Direct latent demand	3,599
4 Population growth (2017-2022)	demand	-0.8%
5 Broader SA3 HE enrolments (online) (2021)	Indirect current demand	555
6 Broader SA3 VET enrolments (Cert IV above and online) (2021)	demand	188
7 Broader SA3 population (aged 15-64) (2021)	Indirect latent demand	35,470
8 Broader SA3 population growth (2017-22)	demand	0.0%

Normalised values

Values are normalised between 1 (lower need) and 5 (higher need) to better compare regions.

Additional notes:

1. Region types are either 'SA2', 'Custom SA2' or 'SA3'. The different groupings are required to better reflect economic regions and compare geographic locations.
2. Threshold - the level set for each readiness threshold measure that a region must pass in order to be considered in-scope for a Centre.
3. Met? - Whether or not a region meets a readiness threshold.
4. Campus - an existing campus is defined as either being an existing RUC campus or a higher education institution that offers over 5 subjects and has more than 100 full time students.
5. Minimum distance - defined as the minimum distance in km between the region and an SA2 region with an existing university campus or RUC.
6. Relative needs weightings - the weighting that is applied to the combined score of relative needs measures corresponding to their relevant indicator.
7. Overall needs weightings - the weighting that is applied to all volume measures and all relative needs measures when calculating the overall needs score.
8. SA3 population - the population of the broader SA3 region, excluding any metropolitan sub-areas.
9. This table captures all the regions within the broader SA3 region (excluding any metropolitan sub-areas). 'In-scope' indicates whether a location is included in the dashboard analysis.

REGIONAL NEEDS DASHBOARD

Original DAE note: "This dashboard is intended as an initial and preliminary assessment of the relative needs of a region for a Regional University Centre. It accompanies a report titled 'Scoping study to inform future locations for Regional University Centres' delivered to the Australian Government Department of Education, Skills and Employment on November 2021. * Department of Education Integrated Data Analytics team has updated data inputs, delivered to Regional Policy team June 2024.

REGIONAL NEEDS RESULTS

Summary of the key needs results, including the relative scoring of this region to all assessed regions. The overall score is a function of the 'relative needs' and 'needs volume' of a region. All regions receive an overall needs score, however, regions with an identified readiness threshold issue do not receive a ranking.

Relative needs score

3.0

An assessment to determine the relative extent of a community's underrepresentation in access to and achievement of positive tertiary outcomes. Regions are assessed from largest relative need (5) to smallest relative need (1).

Needs ranking

Regions that do not have any readiness issues identified are then ranked by the overall needs score.

Ranked 151 of 235 regions with no readiness issues identified. Total number of regions is 597.

Needs volume score

2.9

An assessment of total need or demand (i.e. volume) for Centre services within the region. Regions are assessed from largest volume (5) to smallest volume (1).

Overall needs score

3.0

A weighted average of relative needs and needs volume to determine the overall needs score and ranking of a region. Regions are scored between highest need (5) and lowest need (1).

READINESS THRESHOLD

These factors inform the initial threshold considerations for the level of readiness for a community to establish a RUC, and the likelihood of success if a RUC is established.

No initial readiness issues identified

Measure	Value	Threshold ²	Met? ³
Population growth above minimum threshold	2.8%	-1.0%	Yes
Population size above minimum threshold	4,200	3,000	Yes
Population size below maximum threshold	4,200	50,000	Yes
Year 10 completions above minimum threshold	85.5%	75.0%	Yes
Existing RUC or university campus in region ⁴	No	No	Yes
Nearest campus above minimum distance threshold (km) ⁵	51	40	Yes

WEIGHTINGS

Weightings have been applied to the relative needs measures and overall needs scores.

Relative needs weightings ⁶	
Access and participation	40%
Retention and experience	40%
Transition and outcomes	20%

Overall needs weightings ⁷	
Relative needs	70%
Needs volume	30%
