

NDRI Targeted Discussion – Data

Tuesday 24 September, 11am-1pm AEST

Discussion Questions and Agenda

- What investments can support the wide-ranging uptake of FAIR and CARE principles by Australian researchers?
- What investments can be considered to address the barriers identified in the NDRI Strategy (pages 16 and 17)?
- How can future NDRI investments ensure recognition of the importance of data for self-determination and the principles of Indigenous Data Sovereignty, in alignment with the Australian Government's Framework for Governance of Indigenous Data?
- How can training, education and professional development for all NDRI users and operators account for ongoing and rapid advancements in NDRI, including capabilities not yet realised?
- How can NDRI providers play a role in supporting the entire data lifecycle?
- How would supporting consistency in data standards, curation and access support integration measures across Australia's various levels of computing and data infrastructure?
- **What are the priority data-related NDRI investments that would enhance Australia's research efforts?**
