Unofficial

Hi s 47F

Yep, I can see the changes now and as long as all those students meet requirements we're all good. The warning for 'students out of the age range' will still pop up but just tick the box *Yes, I have reviewed the data and it is correct. I can also see that the status has changed to declared. I spoke with s 47F who will be submitting the declaration for the school. Once I've reviewed the data I will call s 47F and get the declaration finalised by COB today.

Kind regards,

s 22

Hi s 22

Just to let you know that they had taken the Year 4 students out which was why you couldn't see them. They have put them back in.

Kind regards

Hi s 47F

I'm officer reviewing and finalising census declarations for all non-systemic schools in South Australia. In regards to your earlier email conversation with s 22 and the question from s 47G relating to the Year 1 Minus 1 warning in the Online Declaration.

As per the 2018 Census Guidelines as long as the said student meets the requirements for inclusion they can be reported for census and with the 'Age Warning' in the Online Dec please ignore. I have just checked that schools Census data and cannot see that particular student of age 4 in the report. I will follow up with s 47G s 47G today and relay this information to s 47F via phone call just to clarify with s 47F as well.

Kind regards,

s 22

Hi s 47F

Thanks s 47F this appears to be an IT error.

Can we please have the AGEID of the school in question so we can replicate this issue and report it for correction. The assessor for that region of schools will then contact the school directly and log the appropriate conversation for the school's census audit records.

Thanks

Subject: Fwd: Mid Year Intake - Students Year 1minus1 [SEC=UNOFFICIAL]

Good morning

As per the below email conversation s 22 provided some advice on the criteria for including Year 1 minus 1 students on the census given the guidelines no longer state they must be going up to year 1 in either terms one or two of the following year. We have had a query from one of our schools who received

the attached notification in regard to including Year 1 minus 1 students which are not yet aged five in the Census.

Can I please check how the school should respond? The students are undertaking Primary schooling and there is no minimum age for commencing Reception in South Australia for non-Government schools.

Kind regards

Hi s 47F

For 2018 census, provided that the student in question satisfies all the state enrolment requirements (under relevant SA legislation), along with eligibility requirements (e.g. enrolment, attendance, and that they are undertaking primary schooling) detailed at p10 of the Census Guidelines, a school may report a student.

Please remind the school that schools remain required to keep all supporting documentation in relation to their census return as we may require it for our annual validation processes.

Kind regards

Subject: Mid Year Intake - Students Year 1minus1

Good morning

The Census Guidelines used to specifically state that in regard to Foundation (Year 1 minus 1) students they could only be included on the census if they would go into Year 1 in either terms 1 or 2 of the following year. In South Australia there are a number of schools which have a mid-year intake for Reception (Foundation) students. These students participate in a full-time regular Reception curriculum. In regard to some mid-year Reception students they will then undertake a further twelve months of Reception the following year. Provided the students meet all other eligibility requirements can these students now be included on the census?

Kind regards

Hello s 47F (and s 47F and s 47F – seems I have come back to funding for a while 😊)

From the 2018 census onwards, Year 1 minus 1 students are being treated the same way as all other students. Specifically they can be counted even if they repeat the year. The previous rule has been removed from the census guidelines this year.

As a result, any students counted in the census, including Year 1 minus 1 students, will attract funding.

This will continue in 2019.

Many thanks
David

Dear Alex

I hope you have been well. I'm sure your role as acting Deputy Secretary is keeping you extremely busy.

I have a question regarding school funding which is related to the census.

As part of the 2018 census, DET confirmed (refer below email) that Year 1 minus 1 students could be included in the census and would be funded accordingly.

What I am seeking is confirmation that this arrangement will continue into 2019 and beyond and was hoping you or one of your colleagues could provide this.

regards, s 47F

Hi s 47F

You requested confirmation re, including Year 1 minus 1 students in the census, given the guidelines no longer requires they must be going up to year 1 in either terms one or two of the following year.

For 2018 census, provided the student in not outside the scope of inclusion, refer to pg 9 of the census guidelines, and meets the eligibility requirements, pg 10 of the census guidelines (e.g. enrolment, attendance, and that they are undertaking primary schooling), a school may report this student.

Kind regards
