

# **Non-Government Reform Support Annual Report**

---

**2023**

---

**Association of Independent Schools of the ACT**

---

## **Executive Summary**

The Association of Independent Schools of the ACT's Strategic Intent has guided the decisions and work of the Association as it articulates the key directions needed to achieve the Association's goals. The Strategic Intent is supported by several operational plans.

Since 2018, AISACT has built and further developed the capacity of independent schools in the ACT to meet the Australian Government's school education reform priorities for non-government schools and has continued to build on this work. Through the 2023 work plan, AISACT continued to enhance activities and further embed best practice support across the Association member schools. To this end, AISACT provided a range of innovative, bespoke, and responsive programs beginning in January 2023.

AISACT continued to build on the previous work on the **quality assurance, moderation, and support for the continued improvement of Nationally Consistent Collection of Data on School Students with Disability**, with a continued focus on leadership development. In addition, the provision of expert advice from an experienced staff member who provided both hotline support and advice through on-site support at individual schools.

AISACT continued to work to ensure that all 18 Member Schools have access to advice and assistance regarding the implementation of the online delivery of the **National Assessment** program.

The priority **addressing the improvement of governance and financial management practices in non-government schools** has over the years of the Reform Support Fund seen the provision of a range of programs including those provided by the Australian Institute of Company Directors available to all member schools Board Directors in 2018 and 2019. These were then complemented in 2020 -2022 with the development of a range of resource materials, and in 2023 the focus continued through the provision of sessions which addressed the use of the resource materials and further resources developed to meet emerging needs.

In addition to stand-alone bespoke courses, a culture of sharing and support emerged through focussed committee and network meetings involving Principal/Leaders, Business Managers, and directors in Independent Schools.

**Leadership development, staff and student wellbeing, mental health**, as well as **coaching for school improvement**, continued to be a focus during 2023.

AISACT continued to provide specialist professional learning programs as identified in the Bilateral Agreement addressing **Australian Curriculum, including general capabilities, reporting against the achievement standards, School Leadership, and literacy and numeracy**. A continued focus was on maximising growth for diverse learners and evidence into action.

Staff in member schools were encouraged to share their learning and action research through a variety of events and forums throughout the year all enhancing and supporting the values of AISACT.

## **Relationship with state and territory government**

As the representative body for the Independent School sector in the ACT, the Association represented the sector's views to Territory and Federal governments on matters of significance and importance in education and its Member Schools. The Association continues to work closely with the ACT Minister for Education and Early Childhood, Ms Yvette Berry MLA, ministerial advisors, and senior officials from the ACT Education Directorate. The Association also worked closely with The Archdiocese of Canberra and Goulburn, Catholic Education continuing to advance the specific issues relating to and impacting on Non-Government Schools in the ACT.

The Independent, Catholic and Government schooling sectors continued to work collaboratively in the implementation of reforms outlined in the bi-lateral agreement through quarterly cross-sectoral executive meetings to share progress and challenges and by maintaining cross-sectoral reform-specific governance mechanisms such as NAPLAN Online Steering Group, Australian Curriculum Assessment working group. In addition, the AISACT continues to engage with the Education Directorate regarding the implementations of the initiatives embedded in the ACT Future of Education Plan and where in particular cross sectoral initiatives can be realised. AISACT continues to contribute to work around the data collection for the Australian Teacher Workforce Data Strategy and the development of a national Unique Student Identifier.

## Project Report

AISACT continued to provide specialist professional learning programs as identified in the Bilateral Agreement addressing **Australian Curriculum, including general capabilities, reporting against the achievement standards, School Leadership, and literacy and numeracy**. A continued focus was on maximising growth for diverse learners and evidence into action.

The Association continued to collaborate and contribute to provide input through reform specific governance mechanisms regarding the implementation the agreed priorities of the Bilateral Agreement with all education sectors in the ACT.

### Summary of 2023 achievements

1. Project Title	2. Project description and activities	3. Expected outcomes/ Overall achievements  Achieved or Not achieved	4. Indicators of success	5. List any additional or variations of Activities undertaken/Achieved outcomes
<b>Governance</b> Commonwealth priority Governance and Financial Management Practices <b>Governance Workshops</b>	<b>Governance Workshops</b> Working with Member School Board Chairs through the Chair Connect network, the AISACT Governance Principles will be unpacked.  <b>Legal Lens Resources SH&amp;G</b>	Improved understanding of agile governance implementation including how do we implement better governance & the Board's role in monitoring & measuring performance, based on the AISACT School Governance Principles document & Toolkit.  <b>Achieved</b>  Resources developed to support the implementation of the new ACT Education Act amendments and Registration guidelines  <b>Achieved</b>	50% of AISACT member schools engage with the workshop series.  <b>Not achieved</b>  Feedback indicates that higher than 80% of participants reported growth and an enhanced understanding of the range of information presented.  <b>Achieved</b>	Governance workshops were delivered on request at individual schools

1. Project Title	2. Project description and activities	3. Expected outcomes/ Overall achievements  Achieved or Not achieved	4. Indicators of success	5. List any additional or variations of Activities undertaken/Achieved outcomes
	<p><b>Developing A Child Safe Strategy for your School.</b></p> <p><b>Business Management Modelling for Business Managers</b></p>	<p>Member Schools participate in four workshops designed to support the development of a Child Safe Strategy within their school.</p> <p><b>Achieved</b></p> <p>Business Managers Support Forum participants will share and develop a better understanding and application of a range of business issues which impact on their role and management of their schools.
