

Early Childhood and Child Care in Summary

June quarter 2018

This publication provides information on children in approved child care services across Australia for the June quarter 2018.

Key findings for the June quarter 2018 include:

- 1,269,260 children attended approved child care, up 0.1 per cent compared with the June quarter 2017.
- 882,540 families had at least one child in approved child care, an increase of 1.0 per cent since the June quarter 2017.
- 18,782 approved child care services operated in Australia, an increase of 1.7 per cent since the June quarter 2017.
- The total estimated Child Care Benefit and Child Care Rebate entitlement was \$1,554.0 million, down 3.0 per cent since the June quarter 2017.

Introduction

This report presents information on the numbers of children and families using approved child care, the costs of care and the numbers and types of child care services in Australia. It includes data from the Child Care Management System (CCMS), MyChild website, Department of Human Services and the Australian Bureau of Statistics.

During the June quarter 2018, 882,540 families used approved child care services for their 1,269,260 children.

- In terms of affordability, 90.7 per cent of these families are estimated to have received Child Care Rebate (CCR), with up to 50 per cent of their out-of-pocket costs covered by the Australian Government.
- In terms of availability, in the June quarter 2018, there were 18,782 services providing approved child care services across Australia.

During the June quarter 2018, the Australian Government subsidised the cost of child care for eligible families through the Child Care Benefit and the Child Care Rebate to help parents with the cost of approved child care. The total estimated expenditure on Child Care Benefit and Child Care Rebate during the quarter was \$1,554.0 million. The majority (\$1,103.0 million or 71.0 per cent) of this was paid in relation to families using Long Day Care services.

Costs of care after Australian Government fee assistance

The child care out-of-pocket costs for families are determined by a combination of the fees services charge, the type of child care used, the amount of care used by families for their children and the amount of Australian Government subsidies that families are entitled to.

Before Australian Government child care subsidies were taken into account, out-of-pocket costs for families varied from 29.1 per cent of weekly disposable income for families earning a gross income of \$35,000 per year to 9.5 per cent for families earning a gross income of \$215,000 per year. After Australian Government child care subsidies, out-of-pocket costs were significantly reduced, varying from 8.0 per cent for families earning a gross income of \$35,000 per year to 4.7 per cent for families earning a gross income of \$215,000 per year.

Technical Notes

General counting rules

All analysis broken down by state in this report corresponds to the *state of the service* rather than the state where the child/family lives.

Use of child care services is counted for each individual child using approved child care services. An instance of child care usage is defined as at least one child care attendance per child care service for the quarter irrespective of duration or frequency. For example, a single hour at an Occasional Care centre or 40 hours per week throughout the quarter at a Long Day Care centre, are both counted as an instance of child care usage.

Children and families are recorded for each of the service types that they use during the quarter. Children and families using more than one service type during the quarter or financial year are counted only once within each applicable service type category and only once within the 'Total' category for the relevant time period. Note that as children and families may use more than one service type in any particular timeframe the sum of the component parts may not equal the 'Total' category.

Changes in service type numbers need to be understood in the context of counting rules. Prior to the implementation of the Child Care Management System (CCMS) all services with an 'active' status were included regardless of attendance. This resulted in a small number of services being included in the data that did not actually have any children in attendance. Under CCMS a service is counted as 'active' only if it had at least one child attending at some time during the quarter, thus aligning the counting rules for children, families and services.

CCB and CCR estimation

The Child Care Benefit (CCB) and Child Care Rebate (CCR) estimation method used in this report:

- Under-estimates CCB as only CCB payments made during the quarter are reported and not the CCB amounts customers were actually entitled to but did not receive (for example because of families over-estimating income or receiving annual or lump sum CCB payments to avoid debts).
- Over-estimates CCR due to under-estimation of CCB.
- Doesn't take into account reconciliation which will adjust the customers' CCB and CCR actual entitlements based on their actual rather than estimated incomes. There is a considerable time lag for the reconciliation process to be complete, this can take a number of years.

Data sources

Data included in this report comes from the following sources:

- The majority of data is extracted from the Child Care Data and Reporting System (CCDARS). CCDARS is a Department of Education and Training based data storage system for data collected from approved child care services via the Child Care Management System.
- Supplementary data is sourced from the MyChild website and the Department of Human Services.
- Australian Bureau of Statistics (ABS) data is included in this report for comparison purposes.

Revisions: Due to changes in the administrative system, data may be revised to ensure the most accurate, up-to-date figures are published.

Vacancy information

All approved services are required to regularly report their anticipated vacancies according to a standard definition, to the Department of Education and Training. For most services, a vacancy is defined as a permanent full day vacancy that the service is willing to fill.

The information contained in this report (Table 19) relates to specific reference weeks. As is standard practice, a reference week is used to represent the quarter and reduce errors due to potential inconsistencies in reporting. For the June quarter 2018, vacancies for Long Day Care, Before and After School Hours Care, Occasional Care and Family Day Care are reported from 21 May to 27 May 2018. Vacancies for Vacation Care are reported from 16 April to 22 April 2018 for all States and Territories.

Definitions

Approved care: Care provided by Long Day Care, Family Day Care and In-Home Care, Outside School Hours Care and Occasional Care services approved by the Australian Government to receive Child Care Benefit on behalf of families.

Average number of vacancies: As services report vacancies for each day of the week, the number of vacancies for each service is averaged out across the weekdays, that is, it is the sum of vacancies on each weekday divided by five. The total number of vacancies in an area is the sum of the average vacancies per service.

Child Care Benefit (CCB): A payment made by the Australian Government to families to assist with the cost of child care.

Child Care Management System (CCMS): This is the electronic system used for the administration of CCB. Under CCMS, approved child care services submit attendance information to the Department of Education and Training over the internet. Data in this report are primarily sourced from the CCMS.

Child Care Rebate (CCR): A payment made by the Australian Government to assist eligible working families with the out-of-pocket cost of child care. CCR is calculated based on the gap between the fees charged by the child care service and the CCB paid in respect of fee relief. Families who satisfy the work/training/study test requirements may be entitled to receive CCR for 50 per cent of all out-of-pocket costs up to an annual limit.

Family Day Care: Family Day Care educators provide flexible care and developmental activities in their own homes for other people's children on behalf of an approved Family Day Care service.

Grandparent Child Care Benefit (GCCB): Grandparents with the primary care of grandchildren and who receive an income support payment may be eligible for the Grandparent Child Care Benefit (GCCB). The GCCB covers the full cost of approved child care for up to 50 hours for each child per week. In certain circumstances Grandparents may be able to get GCCB for more than 50 hours per week.

In-Home Care: In-Home Care educators provide flexible care and developmental activities in the child's own home on behalf of an approved In-Home Care service.

Jobs, Education and Training Child Care Fee Assistance (JETCCFA): This is a form of government assistance that provides extra help with the cost of approved child care for eligible parents undertaking activities such as job search, work, study, or rehabilitation as part of an Employment Pathway Plan with the Department of Human Services or an employment service provider, to help them to enter or re-enter the workforce.

Long Day Care: This is a centre-based form of child care service. Long Day Care services provide quality all day or part-time care for children of working families and the general community.

Occasional Care: This is a care type mainly for non-school aged children. These services cater mainly for the needs of families who require short-term care for their children.

Outside School Hours Care: Services provide care for school aged children before and/or after school during the school term. Some services also provide care on 'pupil free' days. Vacation Care is also included in this category. Vacation Care services provide care for school children during the school holidays. Vacancies are reported separately for Before and/or After School Hours Care and Vacation Care.

Reference week: For Long Day Care, Family Day Care, Before and/or After School Hours Care and Occasional Care services, the reference week for vacancy information is selected as one of the last available weeks that is not affected by school or other holiday periods and a week that provided a consistent (with other weeks in the quarter) level of services that had reported across the quarter. The reference week includes weekdays only as most services do not operate on weekends. The reference week for Vacation Care is based on each state and territory's school holiday periods.

Region: Regions of Australia are classified according to the Australian Bureau of Statistics Australian Statistical Geography Standard (ASGS), July 2011. This classification divides each state and territory into several regions on the basis of their relative access to services.

Reporting services: The services that reported their vacancy information for the reference week. This includes a small number of services that reported vacancy information and indicated they were not operational for the week.

Service: Child care services are approved by the Australian Government to receive CCB on behalf of families. Most Long Day Care, Family Day Care, Before and After School Hours Care, Vacation Care services and some In-Home Care and Occasional Care services are approved child care services. The total number of services refers to the number of services that were active during the December quarter 2015, that is, they had at least one record of child care attendance in the quarter.

Special Child Care Benefit (SCCB): Additional child care assistance provided for children considered to be at risk of serious abuse or neglect, or exceptional cases where a family's income does not truly reflect their capacity to pay the usual charged fee. Special Child Care Benefit is reported as 'child at risk' and 'financial hardship'.

Vacancy: Anticipated availability that child care services are willing to fill for each week they are operational. This is an ongoing full day vacancy for Long Day Care and Family Day Care, full day vacancy for Vacation Care and Occasional Care services and an ongoing full session vacancy for Before and/or After School Hours Care.
