

Template: Bring your evidence together

This template help you summarise what your evidence suggests about each of your measures.

How to use this template:

- Repeat the measures (columns) and sources (rows) from the template used to identify your evidence sources
- Add short comments on:
 - What does the evidence tell you about what has happened against the measure?
 - What are the limitations of the evidence you collected on this measure?

Key evaluation question: Did the initiative achieve *[insert its intended outcome(s)]*?

Sources	Design <i>[Enter design measures here - add additional columns if necessary]</i>	Implementation <i>[Enter implementation measures here - add additional columns if necessary]</i>	Outputs <i>[Enter outputs measures here - add additional columns if necessary]</i>	Outcomes: Engagement <i>[Enter direct engagement measures here - add additional columns if necessary]</i>	Outcomes: Achievement <i>[Enter direct achievement measures here - add additional columns if necessary]</i>	Outcomes: Behaviours as proxies <i>[Enter measures of behaviours here (note if linked to engagement / achievement) - add additional columns if necessary]</i>	Outcomes: Beliefs as proxies <i>[Enter measures of beliefs here (note if linked to engagement / achievement) - add additional columns if necessary]</i>
