BUNDABERG REGIONAL COUNCIL	This project will use a variety of maker spaces and other settings including real and simulated work spaces to engage mature aged long term unemployed job seekers, or those at risk of becoming long term unemployed, into pathways to employment trials and sustainable employment. The program seeks to develop the personal, employability, conceptual and practical skills to enable participants to transition to employment readiness. The project's culminating activity is a regional employment trial in locally prominent sectors of agriculture, health and construction. The project is responsive to regional needs, but the project outcomes will also contribute to a sustainable model that is adaptable to other regions across Australia. 15 participants sign on to an activity agreement with the Impact Community Services to commit to the project. There will be 15 participants per program. Two iterations of the project program are to be run between August 2019 and 30 June 2020 (dates subject to funding approval). FREDERICKS CORPORATION PTY LTD	The Dare Employment Bootcamps are structured to increase the participant's confidence and get them to engage in positive job seeking behaviour. The camp environment fosters a sense of community with all campers sharing duties, eating together and sleeping in large dormitories. Three camps will be held totalling 45 participants with each camp limited to 15 participants aged 25 to 35 to ensure ample time can be dedicated to the needs of each individual. A three-step approach will be taken where the participants are interviewed to assess their suitability, followed by the camp and then an aftercare process of follow up meetings to provide support and reinforce the learnings from the camp. The adventure activities follow our camp philosophy where we encourage the participants to see problems as an opportunity to learn, develop and grow instead of seeing them as a burden or barrier. Changing participant's perception from problem to challenge will influence their attitudes and behaviour. Through challenge, people question their pre-set limitations and self-perceptions and grow in confidence, resilience and optimism. Over the 5-day program participants will be exposed to a range of job finding skills while also participating in confidence building activities. These skills will be delivered by the Job Skills Centre and other industry experts. Trained mental health workers will be on site to assist participants as required to work through any issues that may arise during the camp. The course culminates in a dinner prepared by the course participants for local businesses. Each course is tailored to a specific industry and the local businesses from that industry get a chance to meet the job seekers in a neutral friendly environment.	117,150.00	27-Sep-2019	22-Nov-20	N	N	N/A

WYNDHAM CITY COUNCIL	The project will see WCC taking an overall coordination role and using established networks with business and industry to develop employer-led solutions to address barriers for the target cohort. The service model, to be developed in partnership with jobactive providers, local employers, education providers, settlement services providers and other key stakeholders will enable these organisations to be more closely aligned in how they deliver services to the target cohort. The project seeks to meet the following objectives:1. Locally design and implement a system that delivers services, support and local systems for economic participation (jobs and small business) in a more coordinated way, that takes into account the individual as a whole as well as their family unit through the use of a family-focused assessment tool. 2. Increase the number of people in the target cohort who find and sustain employment or start a small business. 3. Assist local employers in accessing local jobseekers to fill their labour needs by drawing on the capacity that exists within the humanitarian migrant cohort to meet industry identified demands and skill shortages.	177,080.00	19-Jun-2019	07-Dec-20	N	N	N/A

We recognise that traditional strategies such as pay-for-placement and sector specific vocational qualifications are transactional paradigms that have run their course.
