Information and Communication Technology

This is our future. It's important that our children receive and learn the latest technologies including coding, graphic design and mobile app development.

To much of our development is outsourced to overseas operators who unfortunately don't always keep their word or agreement.

(I run a business in the IT development sector)

Rating: 7

Entrepreneurship and schools

Mentors are incredibly positive and provide powerful benefits to those who wish to listen and act upon advice given.

Rating: 7

Improving access – enrolments, clusters, distance education and boarding

Enrollments are currently working well. Distance education and boarding hasn't been raised within our family as yet.

Rating for enrolments: 7

Rating for clusters: 7

Rating for distance education: 7

Rating for boarding: 7

Transitioning beyond school

Important. Coming from Perth we didn't realise that some schools just don't have the number of students required to operate with all years. For example some high schools only operate to year 10 after which students need to move school to finish their education or worse get a job without the best education.
