

Gifted and talented needs to be taught to teachers as children are being pushed aside as they don't know how to deal with children. My daughter does not want to go to school and is bored as the teachers do not know what to do with her. Colour by numbers is the normal thing to give her. She then gets bored and mucks around which results in behaviour issues which the teachers say if she is that smart she wouldn't be like. They throw harder work at her but no teaching is happening which is resulting in gaps which the teachers can't understand. My daughter has been denied harder work as the teachers say it's outside their duties. A greater consideration needs to be put on putting children of all abilities with like-minded peers so all can get the most from school
