

EXPECT TO WIN TEACHER MENTORING PROGRAM

The Teacher Mentoring Expect to Win Program is an exclusive program designed by Bradley Charles Stubbs to teach the Teachers. It's about results.

MICHAEL MAGUIRE

LEADING RUGBY LEAGUE COACH

Bradley has come across something not many people truly understand or comprehend.

The people that open their minds to it and listen will get something incredible and so very special out of it.

Truly inspiring!

EXPECT TO WIN TEACHER MENTORING PROGRAM

3 MONTH PROGRAM

ABOUT TEACHER MENTORING PROGRAM

- Increase retention and promotion amongst teachers
- Increase engagement with students
- Target improvements in student performance with great results

The 3-month program is about creating a winning culture, as it is in the boardroom and in life. In the classroom it is not dissimilar; creating a positive working environment, maximising engagement with the students and bringing up the bottom line of measured assessments.

We have enjoyed great success previously with the improvement of, such things as, literacy levels, evidenced through Queensland Government standardized testing.

If you are serious about securing results and expect to win, consider it done.

EXPECT TO WIN

HEAR FROM OUR CLIENTS

MICHAEL CHEIKA

*INTERNATIONAL RUGBY
COACH*

I believe 201%. Since meeting you, I understand more about what belief actually is and I am prepared to go there.

JO SHERLINE

FOUNDER FRIDAY FLYER

Bradley has successfully motivated our team to achieve new records and set in motion our journey to new and exciting endeavours.

CRAIG MARKHAM

CEO FIT SERVICES

The power of his "Expect to Win" message engulfed our current team and saw people hit targets at the end of June 2014 that they thought were unachievable.

TEACHER MENTORING FOR GREATER STUDENT ENGAGEMENT

This program is exclusively designed for and implemented in schools. Bradley's program uses unique techniques developed through his study of the mechanics of the brain, and neuroscience, as well as his own life experiences, giving him the unique ability to develop program that not only apply, but maximise, the natural workings of the brain to one's benefit.

In schools it is about maximising teacher retention and student/parent engagement.

Every program is individually tailored to each client/person whereby the entire thinking is transformed into one of "believership". It is solely success focused and develops an entire winning & positive culture within a school.

SUCCESS AT BREMER STATE HIGH SCHOOL

Our pilot program was at Bremer State High School in Ipswich, Queensland. The goal, set by the Head of Literacy, was to improve literacy levels.

We were advised that they had tried all the mainstream methods, and programs, offered by Queensland Department of Education, with minimal success, so they reached out to us.

Through, Queensland Department of Education provided, standardized testing before and after the 3-month program, literacy levels were improved from 4.2/9 to 7/9.
